

Q Julia Bishop (researcher)
Q2 Alex Hetherington (researcher)
A Serena (mum)
B Kawsu (dad)
C Mallison (6)
D Essa (4)

A The majority of the stuff I'd say they know how to work. Mallison gets really, really stressed out on the....what's it called now....

Q2 Switch.

A Switch, that's it. If he goes on Minecraft and it's not on the creative setting it's on the survival setting. On the survival setting he-

C Dies.

A -can be killed....

C I get killed.

Q2 Do you not like the survival setting?

C No, I get killed on it all the time.

Q2 OK.

Ahe has to survive by eating food and things can attack him and he really doesn't like that, it upsets him. So he plays on the creative setting, it's just about him building then. And he can get food and stuff, he can eat, but he doesn't like, he's not worried about being killed or not eating enough and all that sort of stuff, so he's not got the same pressures I don't think.

Q2 Is Switch your favourite technology toy?

C Yeah.

Q2 Definitely?

C If I had an actual.... GoPro I would like that as well.

Q2 I see.

C I would just use it.

Q2 I could show you some of the videos that you've taken soon.

C Yeah.

Q2 How often would you say that you play on the Switch?

C What?

Q2 How often would you say that you play on the Switch, do you play on it....

C Like really, really often.

Q2 Really, really often?

C Yeah.

Q2 Every day?

C Er....

Q2 Every other day?

C Depends.

Q2 Depends?

C Yeah, if I'm allowed.

Q2 If you're allowed. Do you play it before school or after school?
