

Q = Main interviewer (Cath)

Q2 = Second interviewer (Alex)

A = Mum (Denise)

B = Dad (Travis)

C = Child 1 (Jeremy, aged 11)

D = Child 2 (Cerys, aged 9)

C ....my fault, and honestly I was like 'what'. And then in drama...

Q2 Yeah?

C ....at school, OK. I don't know if it was just today, and basically when it comes to drama I'm pretty good, because when it comes to facial expressions and pretending we are ??? I'm pretty good. Because in drama, OK, today OK, we had to pretend to break out of a prison cell, and basically one of my ideas OK was to just bang on a wall.

Q2 OK.

C And I just kind of.... and I'm not surprised that I was so good because me and my sister we used to do that all the time, that's one of my most favourite things, imagination. Called this game Gigi, and basically ???

Q2 Yeah.

C And me, I am the kind of one who makes up a ??? and a Sacks. If you don't know what a Jaffa is, it's not a ??? like I made it up myself. Basically ??? a Jedi and a Sith combined.

Q2 OK.

C It's a lot more powerful than you think. Trust me if he....??? if Jaff ??? I mean like a Jaffa who was like 2 years old OK, he could wipe out a million Jedi and a trillion Sith.

Q2 That's pretty cool.

C Without even trying.

Q2 Wow. That's really, really interesting.

C ??? could do it in its sleep.

Q2 That sounds terrifying. How do you even do it in his sleep? OK.

C The force.

Q2 The force, oh I guess so.

C I mean as a ??? hence said some of them have survived, they're all dead.

Q2 OK. So what were you saying, you were saying mixture of a Jaffa and something else?

C Yeah, a Sans from Undertale.

Q2 OK.

C He is basically the weakest animal because he has one heat treat and just one damage, but everyone's afraid of that? and I know why. I've seen a lot of people face him. They go through him like 100 times before they finally get in him. He has one heat treat, every once a while you've come across OK he can do 999.999999 damage OK and they're dead because they have way more than one HP. Seriously, even on ??? OK, would be able to kill Sans if he doesn't dodge, because you have to slice at him 25 times at least to kill him.

Q2 OK.

C But that's only because he has a short cut which is teleporting, which many people actually say is....which is actually freezing time. He freezes time and is able to confuse you. Because once he dodges about 10 times you will go through the time because he's lazy, he's a lazy monster, but honestly he does take a long ??? his brother a one-to-one ??? doesn't want to kill.

Q2 OK.

C And basically you just chop his head off and then he'll turn to dust. Because that's what monsters do when they die, they turn to dust. Which if you think about it that's probably how ??? got so much dust, because of ??? dust. If dust doesn't come from outer space where else would it come from, because monsters still give birth, but then they may die and they will just create more dust. Because if you do the genocide route in Undertale once you get to Sans there will be some narrating I think, and it says 'dust of those still here'. And that's probably due from quite a lot of the monsters, like probably a few hundred.

Q2 Right, that's kind of morbid ??? if that makes sense? OK.

C In the ??? however it's dust ??? But now ???
