

Q = Main interviewer (Cath)  
Q2 = Second interviewer (Alex)  
A = Mum (Denise)  
B = Dad (Travis)  
C = Child 1 (Jeremy aged 11)  
D = Child 2 (Cerys, aged 9)

C ....then you either kill her or you spare her. And eventually that will get to ??? where she basically just....well one of her attacks OK is basically the same as the....her same magic but it just won't move away from you, from your soul, and then you won't get hit.

Q2 Yeah OK. I'll have to keep that in mind when I have another go.

C And then there's, in the genocide route OK.

Q2 Genocide route, yeah.

C Sans will also be spared by that point, so if you spare him there's just ??? to kill. But if you keep doing it over and over and over you will eventually get to the point where Sans will just let you through.

Q2 OK.

C Obviously he remembers three sets. And then you'll get to the next room where you'll either fight Ascar or just go get through to the dialogue, OK.

Q2 You eat your food, don't be talking to me instead. Have your food, it's OK, you can talk to me afterwards.

C I know. I just want to say that basically Sans was a royal scientists, Gastro was his father, his father was a royal scientist so he learnt. And basically he then learnt and he managed to bring all of his friends back, even though they don't have a soul. Because Sans started off without a soul.

Q2 OK.

C Then he was given two tiny shots with ??? soul which eventually was a determination and eventually turned into a full size ??? So he was given that.

Q2 OK.

C So he had a termination.

Q2 I'll have to learn more about ??? I think. OK.

C Me and my sister, we ??? we did an Undertale test OK, and they got our answers mixed. I got her answer and she got my answer.

Q2 Does your sister like Undertale too?

C No, not so much.

Q2 Not so much, OK.

C We used to do it when she was interested in it. Turned out she was a Sans and I was a ??? even though she's the demonic one, as hard as a demon.

Q2 I see, so they got mixed up, right.

C And I'm the lazier one, I don't think that's true.

Q2 No, right. One of the things that ??? the project is you get given this notebook, and you're supposed to draw in it, but seeing as you don't like drawing stuff, it's there, what you could do if you want to is write. And you write about your play and things that you've played with in terms of your play.

C No actually....like my SATS tests.

Q2 Yeah.

C I got one 'expected' standard and to a 'high' standard. I got high standard in my ??? and I got high standard in my reading. But even though in my favourite subject and the one I'm the best in is maths, I got 'expected' for that. Whereas ??? question.

Q2 That's interesting.

C ??? everyone says. Even my teachers thought that. Yeah I do ??? quite a few things.

Q2 That's good. You've taught me quite a few things, you've taught me a lot about Undertale. I expect you'll teach me a lot more next week, if that's OK?

C Mmm, yeah.

Q2 One of the things we do, we leave these journals here and if you can write in them about ??? how you felt, what you played with, when you ??? things like that, just like a diary. You don't have to do it if you don't want to but it's just one thing to do. So you'll get that. I think there's another one there for your sister as well.

C OK. I'm getting a bit stressed with that ???

Q2 Yeah, you can do whatever you like with it.

C ???

Q2 Yeah.

C Is this ???

Q2 I think so.

C Do you mind if my brain sometimes draws on it?

Q2 No not at all. Do whatever you like with it and then next time when we visit if it's OK we'll talk about what you've done. Is that alright?

C Yeah.

Q2 OK, that's what we'll do then. Because what we draw on, I think one of the other things that we could do is bring some Lego, and instead of drawing things you can build it.

C Mmm.

Q2 So that might be something ??? Would that be OK?

C Mmm. Oh actually, ??? like pieces of art.

Q2 Yeah.

C ??? one of them was just to get a design out for ??? for a mask, I aimed for a prototype mask, and my tactical aim.....
