

Q = Main interviewer (Cath)

Q2 = Second interviewer (Alex)

A = Mum (Denise)

B = Dad (Travis)

C = Child 1 (Jeremy, aged 11)

D = Child 2 (Cerys, aged 9)

Q So which game is this, sorry Jeremy?

C This is Assault Strata?. In a sense last ??? about 4 days ago there was a huge new update, it's a completely different new app, reanimated things, in fact two characters even gained a block, but one character was deleted.

Q Oh, one character was deleted, who was that?

C Storyshift Chara, there used to be four but then Storyshift Chara wasn't actually from the actual seasons that they were getting it from, which was Gretchtaylor? [Glitchtale?] which is basically just an expanded version of Undertale after they reached the surface. So practically they didn't really like it and that, plus a lot of people were just logging on to people while somewhere and managed to make them retreat back into the open, OK. And then since they wouldn't a shop? locking on to them, they'd just span three, which would mean Nabs? would spawn practically on them, OK, and wait a second before then shooting, which a lot of players were doing that so it was getting quite annoying for everyone.

Q Aha. So were you playing this online, were you playing it with other people, or were you just aware that other people were doing this when they were playing the game?

C It happened to me once but stopped after someone else, I don't know who, but they just kind of decided to attack him.

Q OK.

C So then it stopped. And then I found the guy who was doing it, because he started doing it to me again. But [possible gamer handle] wasn't too secret, wasn't turning away when I found him, I killed him and he practically raged? ???

Q Oh right, goodness me.

C I mean I probably would have done the same because everyone goes after those types of people because technically they're just cheaters.

Q Are they cheaters? Why are they cheaters?

C Well they log on to someone, and since that version you get infinite range on how long you could shoot at one, OK, because they just span three ??? knives option, OK, or draw spawn knives about the player that they are targeted on, OK, and then their knives will just attack ??? to them. The knives have to wait a second before it charging us, the player, and

then they'd attack. Whereas you most of the time would hit, unless you were....me, because I would be constantly moving, hence dodging the most.

Q Ah, so you'd get out of the way would you, yeah?

C Yeah. Plus most of the time I would be sat, so even if I did get hit OK and my character would practically dodge it, ??? would increase my stress level, which if that gets too high I can then die.

Q Oh right, so in the game it's actually your stress level gets affected as well?

C Yes. But now in the latest update all characters have that.

Q Oh do they?

C Except instead of stress it's energy.

Q Oh OK. So it sounds like there's been some quite massive changes then.

C It's been huge, it's a huge one.

B Sounds like your head's inspired people ??? exploding ???

C It was just definitely the older one.

B Is it?

C Yeah. I was currently in the middle of a fight, as you can here my stress is high so I was attacking ??? I was struggling quite a bit.

Q Which character are you fighting?

C I am fighting the Chara. That was a mego gas blaster, it's just bigger. You saw how I managed to go up to him suddenly, OK? You see I teleported to him, it was like an F? now it's R? Yeah he ain't too good, plus I had basically finished a battle de-de and then he attacks me.

Q OK.

C So my stress was already quite high.

Q Ah, so he stepped in when you were a bit weaker than you would have been?

C Yeah, correct. That was my sister just coughing in the background. But I did have that tactic OK. You see he's about to die but he killed me because my stress is full, and if he doesn't slice me I'll just re-set.

Time 5:00

Q What happens if you're killed in the game, do you just re-spawn or....

C Just....you can wait and see because I died here.

Q OK.

C He just responded with 'die' and that's because I've killed him three times before. He had to re-spawn three times. Now luckily for me I had spawned back Sans? and I wasn't too happy either, so I was just pretty much attacking.

Q So what's your character's kind of abilities?

C Well I'm able to shoot these gas blasters, which my sister said looked like skulls, OK.

Q Oh right.

C I can shoot out burns and then gas blaster to get some damage off. He can teleport, OK. He has telekinesis so if he wants to push you away he can; or you're up in the air he can throw you to the side he can; smash you into the ground he can.

Q Oh right.

C But he does have a time limit now, before you could just practically span it, so that was getting pretty annoying. He's a bit madder, but then another Sans? just grabbed him. Now there was a bad glitch where you could move while you were being telekinesised, it usually would be the factor. Now you can see my stress is pretty high now so I'm retreating, but he's attacking. Now I'm just doing this. After a bit, OK, I decide to attack him again but that's probably because I ain't done. I ain't done until I kill them.

Q Aha. So would you say you are quite a determined player do you think?

C Yes.

Q Have you got like a playing style do you think?

C Yeah and then....it wasn't Asriel? which started attacking me, so then I wasn't too happy. Nowadays if Asriel does that on me, OK, I know how to...I can lock on to them easier.

Q So which character is Asrial, sorry? [researcher mispronounces Asriel]

C Asriel.

Q Asriel, sorry.

C He shoots stars, can make lightening, which you get a second to then try and dodge. He has a chaos buster which shoots a bunch of, that's the shock and ??? the lightening that I told you, OK. Normally if you get to Sans? buy one of those it's pretty much you get hit my a Moldol. Now here's....I have to retreat right now, so I just retreat into here. A lot of players now would know that, but since the guy that I was after had died he came back as another character, AKA Storyshift. Now I'm kind of struggling at the moment so I just use the only thing that I did know to stay alive, and that was to throw him off the edge.

Q Oh right!

C And now that will just make him like auto re-spawn.

Q OK. So where is the edge?

C It's basically the area which doesn't have a barrier, like where I just threw in a Moldol.

Q So what are these white....

C Oh this is just the Paparis battle. In the actual Undertale game, as you get closer to him that will start appearing until you get into the actual fight, then after you've finished the fight it's no longer there. It's just for some like special effects. But this Asriel OK, he's kind of getting on my nerves here, so then after a little bit I just decide to attack because I'm done. And this is the shocking breaker, those little particles you see there, those are the little shots. Now as Sans OK, if you get hit by a bunch of those it's practically just game over because they make sure stress goes....suddenly.

Q Ah OK, yeah.

C And I'm pretty good at dodging just overall, I don't need the game to help dodge, like I take a hit – dodge. I'm pretty good on my own. My hits that people throw at me I dodge.

Q Are you playing this game online when you're playing it?

C That's what Roblox is, an online game.

Q Aha. So these players that you're battling, these are players from....do you know where they're from, do you know anything about them?

C No.

Q You just encounter them in the game?

C Yeah. I'm throwing him off the edge again because I'm currently on high stress so I can't risk it.

Q Are those your speakers?

C Yes. And it wasn't easy, not with that Asriel there. If I remember correctly I die soon. Now I just barely survived. I was almost thrown off the edge due to another Sans. Now he is trying to help me, but after I....he....we deal with that Asriel after him, then that's when he betrays me because he figures I'm on high stress.

Q Aha.

Time 10:17

C A few times I have tried to make them fall off there. See how he just helped me?

Q Oh yeah.

C I would have failed because of my trajectory, well actually that was him. But since he had pushed him over somewhere else I wouldn't have crashed into him, hence saving him, so he knocked it away and then I knocked him off the edge, hence it was a save. And now he betrays me.

Q Have you met this character before, or this player before? Oh yeah! There you go! No.

C Yeah. I just was spawned with the Stop Police because I don't want to die, but that's because I'm getting a bit angry.

Q Your character's got like a glow round it, what does....

C Oh that's just a force field to stop any damage from after he died, it's part of the actual game, you can't really stop it. Now this was the Asriel, I'm not too happy, and dad? storage? after [Chara?] I was pretty powerful. Now I don't like using the third knife move, I just see it as a cheat. But if I really, really need to I will use it.

B Then Shakespearean ???

C Yeah I don't like using cheats on games.

Q There's a lot of betrayal going on I've noticed.

C It's kind of part of the game.

Q Is it?

C About. Everyone wants to win in their own way.

Q So do you feel like you have to have your wits about you when you play it, is it sort of strategy as well as fighting?

C Yes. And sometimes people role play, I'm mainly about fighting, that is seeing as I'm really good at it. But honestly, in my own opinion OK, I'm pretty bad.

Q Why do you think that?

C I just feel bad. I mean there are a lot of players which are better than me. Now you see, that's Asriel there OK, he's purging but I managed to kill him before it. The effects of it are still happening but once it starts, yeah, I'm free again. But usually when that happens OK, I get glitched and I endlessly pull in. So I was about to re-set to stop it, but it stopped and so I decided to refuse it. Now I'm typing something. I'll do more if you like because they were planning to fight me again.

Q You've got a really good memory of this battle, is that through kind of watching it or is that through....can you remember the battles that you've....

C I just remember it.

Q Do you?

C Actually, to be honest, I almost never remember them.

Q Oh really? So this is quite a rare one?

C Actually no, I know just the background, got a little hint, and then I'm back to it. Now that guy there, OK, I keep coming across him so he's quite a common foe, essentially he never stops attacking me since then. Now there's a Hateball, that will kill me in one hit right now. But this Chara has a second life just like the other Chara, but I prefer to use my full potential and that means not to die.

Q Have you got any kind of like sort of particular enemy within this game?

C It was that guy with the fedora.

Q Oh yeah.

C He is my main one. I won most of the battles, not too hard.

Q How do you feel when you're playing?

C Fun. I have a lot of fun. Now that's the same guy who was the Asriel. We're now friends and he just said 'you again', but he was a common foe, we've fought a lot but I usually win. But he was a really good foe himself I can grant him that, he was hard.

Q So you're starting to like make an alliance here, is that right?

C Yeah. But you see he kept attacking me. I didn't want to attack him at first, he kept attacking me no matter what. But now he wants a truce himself, and now he says that I'm targeting him even though he targeted me. Now at the time I was tempted to say 'yeah, says the one who targeted me'. Now I was focused on him, I don't care about the others there, so I just attack him no matter what, I wouldn't care. And as you can see, I've only used to number three yet.

Time 15:00

Q When you are playing, I mean you're sort of talking to these people behind the characters, do you ever sort of feel kind of cross or anything like that, or excited or friendly towards them, or is it all kind of in the game that you're sort of bantering in the game?

C I'm usually a friendly type. I try to make friends but then if they attack me I attack them back and that usually means game over for them. Because that's when I get....because when they attack me I'm like 'really?' and then I just kill.

Q Oh right, they cross the line?

C Yes. And I don't care how many times and stuff. And then I asked Tobo? just loads of questions there, I've forgot what it was.

Q I'm sorry.

C But then there was that guy who targeted me again. I'm cautious right now.

Q What are you holding, what kind of weapon is that that you've got?

C That's a knife, that's part of the character. You're just born with it with this character. I'm focused on him and I used the blaster. If you are a Sans you can do a lot of damage. Now I had to know Karan right now so I was just focused on killing him. I don't really care, I was just focused on killing him. Now as you can see he's sleeping so I must free kill.

Q Oh right. He was sleeping stood up.

C Yes, that's what happens in the actual game once he gets too tired. OK yeah ??? when stress is full.

Q Oh right. So when stress level is full your character sort of shuts down, is that right?

C Correct. Now back then OK, once you have fell asleep you would sleep forever, but now you actually wake up, but that's still a bit glitched. Now that was a poor move of me but I managed to dodge it. Now this has real fight was a bit hard for me, I was focused a lot. When it comes to a fight I focus, I ignore a lot of other things with the fight OK, but I fight and I ain't that easy to beat. Most people who come across me die, that's if they fight me though. Sometimes I just, again, if I have ??? so hence I attack ??? anyone, or if I just want to play a little annoying, because I do that a lot.

Q How long have you been playing this game for would you say?

C About 4 months, maybe so.

Q And do you notice yourself getting better or learning different things out of it, or learning different tactics?

C Er....kind of. No actually, no. When I first started this game I was actually naturally really good.

Q Oh cool.

C You see when I first played it I learnt the controls, I don't even know how to teleport yet, so I don't really know. Now here is the point where I don't want to be Storyshift Chara, hence I just re-set. Then I ask something, because it said 'eh, jump to play kid', that's what he said, I'm pretty sure, so I'm just like 'no'. And I adjust him again, and so I attack him again. Asriel wasn't too happy about that when he first targeted me, now he has some of his friends on the server so they were attacking me as well. But I don't really care ??? about attacking him. Now I already re-set so I have only one life left. And they don't really do all that much

damage, they only did about 12 so I still had 28 health left. Because as this character, once you come back OK you come back with 40 health instead of 99. Now I'm at 9 health and so I'm low, but he doesn't want to fight right now, which was strange and that's when an Asriel goes wrong. I can't quite remember what that said. Yeah he said like....oh right, that's what I said, I've just remembered. I said 'so you don't want to fight' and then he just saved me from that.

Q Oh right.

Time 19:45

C And that was actually quite nice, so then I decided to not attack him and instead attack that Asriel. Now that was the first time I actually collect user number three. Now that Asriel just killed me, but I think I did pretty well to get some damage off, considering I was like 9 health. Now this was Asriel, I was really good at him at the time, I'm not any more, I'm now actually bad. But I wasn't too happy about ??? that so I'm attacking him. And nor am I happy about attacking my friend, plus that was my foe so I'm not too happy with him that he....anyway. Now I'm currently at full health at the moment. Now the guy who I classed as an enemy is not an enemy of me right now, he's currently helping me out because he practically shot him, so he's also attacking. And currently I'm not too happy. Now he isn't locked on to people, so while I'm striking him he's accidentally striking himself, but since you can't damage yourself that won't work. Now I'm currently not into the sword fights, I don't really do a lot of sword fighting in this game, plus they now deleted the sword so you can't do that any more. And that's when....

Q Right, and that's the end of the clip. Can just ask, what time of day was it when you were recording this, because it looks quite dark doesn't it?

C Yeah, but then again this was quite recent, I think it was more like 6.30.

Q 6.30, would that be the evening?

C Yes.

Q So it's like after school. Is this something you would play most evenings, or occasionally?

C Most evenings actually.

Q And why did you decide to film this game do you think?

C Er....just the game I like most. Normally I forget about the GoPro. Now when I heard it.....oh what's that....

Q Oh dear. I think it's gone on to something that it shouldn't have. What's that?

C Well sometimes that's now 6 minutes long.

Q Oh Alex, do you know what this might be?

Q2 I think it's.....

Q OK so can you tell us what this is going to be about?

C Well I'm not too sure, I can't quite remember, most of them I don't really remember.

Q This is filmed again in your room is it?

C OK yeah, this is also from the newest update, and yes it's in my room, they pretty much all are. It's on my head, and that's a tripod. I pretty much only used that tripod once, my sister, like Cerys, also used it. (sings) Something I do (sings).

Q Are you singing to each other, or is it something you do when you're thinking or concentrating?

C I do it for fun, while I'm concentrating and when I'm thinking, pretty much constant honestly. I always have a song in my head. There's always a song in there playing.

Q Is it a song that you know, or is it a song that....

C It's a song like I make up or a song I know. OK, I didn't quite see what happened there.

Q What kind of songs do you like, where do you hear music?

C YouTube.

Q YouTube. And is that sort of music that's in the....sort of pop music, or is it music from video games and things like that, or movies?

C Pop stars I believe, and then put into video ??? or to add some more mixing into a different song, then....oh yes this was when I first figured out about the update.

Q You sound really excited.

C That's probably because I was. But I don't know anything, so I just....

Q2 What made you notice the update?

C Well when I first ??? the entire map had changed. Now at first, OK, in the old one OK you used Shift to sprint but I don't know that, they changed that. So now you double click the movement to get a quick start off or control to start running slowly and it will speed up.

Q So you hear sort of learning about how to use the new update as....

C I'm currently learning it. Now two Charas are attacking me, I'm not too happy, and two attacks I've used already, they cancelled out because that's now possible. And I don't know anything at this point because they practically changed the entire thing, so this was all new.

Time 25:00

Q So how are you feeling at this point do you think?

C Worried, excited, enjoyed, over-p? yeah I zoomed out because I was thinking that maybe it would help me out. But honestly then....but honestly I don't really know. Yeah but then I decided actually what would Sans have. Now originally you'd have to teleport, but now it's F to block. Now at some point the Sans are OK, he has the most energy out of all of these characters, OK. But basically there is now a range from how long you can...for how far you can lock on to a target. Oh! and then I'm attacked. I kind of have to start running, I wasn't prepared for it so I'm running. I stop. Try to lock on. But little did I know that was actually my friend. Just thought I was an enemy at first.

Q Is this somebody you'd met playing before?

C Then he just shouted 'Hasta' and then I went 'oh, hi [male name]' because I didn't realise. But then I did that because he attacked me.

Q Ah, right.

B Is this [male name] in school?

C No, his username is [male name] and that's what I call him by.

Q And is this somebody you've met in previous games?

C Er...yeah. He's become a bit of a friend.

Q Do you know anything about him, like anything about where he might be from?

C No.

Q Could he be from anywhere in the world, could he....

C Yeah, anywhere, I've not clue on where he might not be. Now at some point I do think 'OK I need to teleport' but instead of teleporting I accidentally block because I don't know how to teleport. And that's the point where I was like 'how do I teleport'. So I was confused and kind of worried because teleporting is kind of an important thing. And then there's that Sans kind of accident. Yeah, and now you attack with a bone instead of punching, and that's what I like. I like rock, I do some bones. Bye Sans. I forgot he did that. I forgot that happened actually. He does accidentally hit that Dans [Sans?], dead. And so at this point I'm backing up a bit, I'm not too sure why, I kind of forget why. Have fun.

Q2 Has anything else changed about the game from the update Jeremy?

C Er...quite, there's more than like....there's probably more than I know. And that's one of the ??? hard to block. Yeah but I don't know how to support. I was laughing my head off out of enjoyment. Cerys somehow managed to be out there, I'm not too sure how.

Q Aha, and so you've called your sister to come and see. Does she play this game as well?

C Sometimes.

Q What did she say?

C She just said 'crikey', I can't remember what I said. Now I'm just fighting him because I want to see more things. Now usually I would have teleported over to him and started whacking, but I don't know how. So I just kind of ran at him. And then I can't remember what I said. Cerys left already.

Time 30:00

Q Has she?

C Yeah, she came down for a second and she was like 'oh, nice', but then she kind of left that. And then coming back. Now I don't know how to teleport so normally I would teleport away. But then I was like 'hold on'....I will soon find out that there's now limited locking range. Yeah I killed them. But they were on their first life so they'll come back for me because they don't like dying – and I'm sure no-one does. (sings) that's my instrumental. I was trying to help out, obviously wanted to get through and I was trying to help out by smashing him into the wall. I thought maybe that would help. I didn't do anything good. He asked 'can you please stop that' but then I just respond with 'sorry I'm just trying to help'.

Q2 Do you pay a lot of attention to the chat in the corner?

C Yeah. I do pay a lot of attention, and I even pay attention to it during a fight but only for a split second, like a check 'OK, go back'. But all the while I'm dodging their attacks because I'm wary of what's happening, hence I'm able to dodge while checking the chat.

Q What kind of things are people talking about?

C Usually role play. Sometimes about the fighting, one V1's, two V2's. In fact once, OK, it wasn't on camera OK but it was me versus the entire server, OK. And I was just so good OK that even those, so me versus the entire server – and by the way an entire server which other than me would mean 11 people OK – do you think I died once before killing them all?

Q I don't know.

C I didn't die a single time.

Q Did you not?

C And I killed them all five times.

Q Five times, each?

C Yes, before I just decided 'OK I'm bored' and well I just decided to check out Chara. And then I killed them. But then I killed one Asriel then I died. Then on back of Sans because I was way more powerful and I liked it a lot more, and I just told Cerys to try and hit me. I just asked her to attack me. Yeah it was another Chara, that's what I thought. But I wasn't too good, they have been playing on it for longer so they were better prepared. But soon enough I was asking 'how do I run', I eventually got an answer with 'you press R' and I was like 'oh, thank you'. And then his response was 'no problem'. And my sister doesn't know much about Undertale so I just ask her why she has a locket on her now as well as the knife, and I just respond to her 'why?' Yeah, back with this newest update, there has been another update but that's just for a few bug fixes.

Q Is there like a back story to the....

C Actually no, it's kind of a move on as well as progressing on what limit. So you see OK, back then OK, back then OK, Asriel your stress wouldn't go up, it was glitch. So I just went back to Chara back then. But then one time I decided – this was after the update – I just decided to try Sans again and I'm just OP now. Now I don't know Chara glitched and Cerys noticed that and told me, and I'm just like 'oh yeah'.

Time 35:18

Q You're wearing the head cam is that?

C Yes.

Q Do you like wearing the camera on your head, is that what you prefer?

C Yeah. I will die soon. Now that's when I first figured out that Asriel stress don't go up. But that was a bug, that was a bug.

Q How are you feeling when this is happening, because you sound really animated. How are you feeling, can you remember?

C I'm like 'oh my God this is so good, well worth it'. I died but it was worth it. I was so excited and I wanted to check up. Yeah. And now I learned how to teleport. Now I just have to tell Cerys.

Q2 Did you find yourself having to think about which buttons you're pressing now some of the buttons have changed?

C At first, now I'm not any more.

Q2 Oh I see.

C I don't really block, maybe because I'm always on the move again. And I managed to find a glitch where my energy won't go down while I'm running. And I know how to do it. Now you won't see in this game play because I don't know, I found out off camera. Now at first I just had to dodge on... I thought I had to dodge on the run, but truly that wasn't how. We had to start running and then either dodge or throw an attack at someone, OK, or well at something. And then you'll run without your energy being used.

Q2 Wow. So that's definitely a glitch.

C Yeah I suppose a glitch that the creator didn't have found but didn't bother patching up. Just like how he didn't bother patching up the glitch where they just go behind the barrier.

Q2 OK. So you say you found out about that outside the game. Is that because you watch this game on YouTube and things like that? Is there any other place where you'll talk about this game or think about this game?

C Think about this game? No not really. Not Assault? Strata. But the actual Undertale game, that will be YouTube.

Q2 I see. Do you watch a lot of Undertale on YouTube?

C Yes. And this is when my stress wouldn't go back up again and I was like...

Q So how do you find out if a game's got a glitch, do you find out from other people? Or do you go looking for a glitch or something like that, or do you just....

C I just come across it by accident.

Q Aha. How do you identify it as a glitch?

C Because not everyone knows it, and usually you should. Even....and it's not actually part of the programming, so it's a glitch. And I can usually identify glitches, I'm pretty good at spotting them.

Q When you spot them do you ever tell anybody else, do you tell sort of friends at school or friends online or anything like that?

C Yes, I tell quite a few. I even told random strangers, which they then use against me. But I'm sure they knew how to do it, in fact they were pretending that they didn't know, so they were pretty good opponents. But they honestly said that 'well done, you passed' and so they didn't attack me. They would only attack those who failed it.

Q So it's almost like secret knowledge, is that right?

C Pretty much, yeah.

Q Wow, that's interesting. So can you tell how much somebody knows about a game by how many glitches they know about and things like that?

C Yes. In the old one there was only two, now there's only one. Well actually there's two, one is to run for ever infinitely, and the second one is that while you're running infinitely you can attack, which back then if you ran an attack you're stop running and just slow down to a walk.

Q Oh right.

Time 40:00

C Plus, if you don't attack while doing the infinite run the energy goes up again, and that's another glitch, so there's three.

Q OK.

C But then again they've been planning this since the start of Assault Strava?.

Q2 You talked to me quite a lot about it last visit that we did, a few weeks ago now.

C It would be about, it would be about the time ??? computer ???

Q I think on today's visit what we'd like to do is for you to show us something you really like to play with that involved technology, and Cerys as well.

C Computer.

Q It can be the computer. It could be anything else if you have anything else, it's up to you entirely.

C ??? really just a ??? computer and phone.

Q Computer and phone.

C Before I had a phone. I believe I did have a computer, I'm not quite sure, but I had the DS for sure. I play on that a lot.

A I think you probably had a phone of your own. But I don't know, you played on my phone for so long before you had a computer, I can't quite remember when you started going on your own.

C I got my first when I was 9.

Q Can you remember what kind of games you had on it then, or what you used it for?

C Well I had Smash Hits which I usually got to about level 7 before I died. I....yeah ??? got to level 9 but I couldn't get much further, I was stuck there.

A Classic ??? and Smash Hits are probably ones you inherited off me because I used to play both of those.

C Yeah.

A Not sure what the first thing you would have chosen that I never played. Roblox, Minecraft.

C ???

A Mmm.

C Yeah probably. I was the highest level you ever.....

A Agent Orange, you did really like that for a bit too.

C What?

A Agent Orange.

C Agent Orange?

A You don't remember it at all now?

C No.

D You may have to protect those ??? bits.

A It was like a puzzle, there was a little orange character and you've got to find a way to keep him safe and there was like balls of fire raining down.

Q Is it like specifically a phone game?

A Yeah.

C What was the highest level you ever got to on Smash Hits?

A No idea, not that far. You beat me even last time when you played it better than now.

C So I was level 4?

A Yeah, I'm not sure if I even got beyond level 1, I don't know. It's a long time since I played Jeremy, I don't remember.

C Because I made it into level 1 ???

A Mmm, you showed me the other day.

C Yeah, got to ??? too.

Q OK, and are you OK if I record. OK so we'll press play, and if you want to just watch it or tell me about what's happening while it's playing, is that OK?

D Jeremy will tell me how ??? because I'm still confused. This is basically a game where you can play, which you get to be creatures like snakes, orcas, whales, a dolphin if wanted, and you can also be....there's three different types of human beings.

Q Aha. What's the game called? Do you know?

D Forgot.

Q And are you playing it on a computer in your room?

D Yeah.

Q So what's happening right now in the game?

D I'm trying to survive as a snake, trying not to use all my stamina because you use your stamina to attack. And your stamina is down here.

Q Oh OK.

Time 45:00

D That's my thirst and that's my hunger, and I'm not sure what those two are but they're apparently something I need. And because I'm a snake I've got this thermal vision that I can turn on and off if wanted. And I also have night vision like Ariel and ??? in the game.

Q It looks incredible. So can you....as a snake can they swim?

D Yeah. Or I also can swim but the aquatic ones, if you're a whale it's kind of hard to move around because you don't have that much space.

Q Ah OK.

D That's a thermal vision thing. So he sees in thermal vision.

Q Aha. So what's your character doing, what's your snake doing now?

D Each time it does something with the head I'm pressing one of these keys to make a noise. I always make it do this. You can press your left mouse button to attack, or for your second area attack you can press F.

Q So what's the snake doing, is it looking for something, or just....

D I'm searching around trying to find other people and players that are in the area, in the hopes of finding a person that I've heard be friends with in game. Because I don't really like attacking, because it only says 'attack for food' and I don't really attack that much anyway, so I'm just trying to search around for other people. There's some people up there.

Q OK. Is this....are you playing online?

D Roblox is always online, it supports the players in this area.

Q Oh right, this is Roblox as well. So why did you decide to film this do you think?

D Just the first chance I had.

Q OK. How are you feeling when you play this game?

D Happy.

Q What makes you feel happy when you play it?

D I just like the animals ???

Q You like the animals?

D I like the animals and how detailed it is.

Q Ah OK.

D That person over there, the snake just stole the food, put it in the backpack. And a lot of time I ate it because I'm hungry as well ???

Q So are the animals walking about other players?

D Yeah. In this area I'm just going back and forth to get food and drink water, just going back and forth, back and forth, back and forth a little bit.

Q Do you ever meet the same players when you play this game?

D You can. ???

Q Aha.

D ??? and I usually get some sleep up so I press Y to sleep, because these are all the controls.

Q Right.

D And this is a person that's died.

Q Oh, I wondered what that was.

Time 50:00

D Yeah, because I keep using it as a food source.

Q Ah. What happens if you're playing this game and your character dies?

D You die but you re-spawn and you can be a different animal.

Q Oh OK. Can you remember why you decided snake?

D I just like the snakes. You can be birds but I didn't really want to be one of the birds because I find it quite hard to try and fly around.

Q What's happening now?

D They're....a bird tried to attack me. I think it was a Golden Eagle, and the cobra that was in the water tried to help me get the bird off. And that's the King Cobra that helped me. I'm trying to find a food source but I de-spawn, so just going back to this bird. We're still taking damage because we poisoned each other. And that time I'm pretty sure the bird ate my food.

Q So is that what those numbers mean?

D Yeah.

Q Is that a dead snake?

D Yeah.

Q So if you die as an animal the animal's body just sort of lies around?

D Lies around for other people to try and eat them.

Q Oh that's interesting.

D Until ends up de-spawning. And right there I died because this bird stomped me, and it's a start ???

Q OK.

D These are all the birds from....that you can check in, Northern Cassowary, Emu, South Cassowary or a Barn Owl, and then you need all the things to unlock these. And then the King Cobra, he had Roblox to get an early access pass through the hole ??? King Cobra.

Q Oh OK.

D And you can be the whale that I just chose, which is an Arctic Mac Whale and it tells you facts when you're loading. The Arctic Mac Whale is one of the smallest ??? in the sea.

Q Oh OK.

D And I am the Arctic Mac Whale, so I'm just zooming out because I was too close in. And in the ocean it's quite easy to survive unless you're a shark, because sharks don't really have gills that can attract out and bring in water, so the sharks have to move constantly to get breath. If they stop they can't breathe. And as an Arctic Mac Whale I just came up to the surface to breathe. And you're trying to explore my surroundings and get to know it. I'm trying to figure out why I'm not really reaching all the walls, and then I'm just like it's probably because my hip box is very big.

Q Oh right, what does that mean?

D My hip box is the area where other people can attack and hit me and making me lose my health, so they are causing damage to me.

Q Can you remember when you were playing this game, when you made this recording?

D Probably about 2 weeks ago. And in Roblox you've got these three little choices here, but now there's a fourth one for actions. This backpack is to see your inventory. This little speech bubble thing is so then you can talk to other players. You could also hit this button to talk. And then you can ask questions with this button to leave the game, re-set, or there's another choice but I can't remember. I pressed M to become a different animal because I got bored as the Arctic Mac Whale, so I'm choosing a different one.

Time 55:00

Q What kind of animal do you like to be best?

D Reptiles.

Q Reptiles.

D I chose to be one of the humans.

Q Aha, so you can be humans in the game as well?

D Yeah. Because Jeremy ??? and I was just kind of holding it whilst I was waiting.

Q Oh OK. So what was Jeremy doing while you were playing this?

D He was watching his phone.

Q Was he watching what you were doing as well?

D Mmm. At that minute the hole just....I think that's the eagle, an eagle or a Golden Eagle that attacked me, but as a human you can also eat other animals and you've got an inventory that you can grab food with. And I'm just feasting on the dead bird. All the people have a night vision but obviously ??? have adapted in the ??? so now I'm using my phone for light. That's a Golden Eagle that just killed me.

Q OK.

Plays video

D Not making sense.

Q Is being human quite dangerous in this game then?

D It can be, but you've got a knife, a sword or something to protect you. I believe it was an axe, a knife or a sword.

Q OK.

D I'm trying to unlock the Golden Eagle. Yeah because it's kind of survival points to get ??? and it's 9,000 or 7,000, and I've only got something like 3,000.

Q So is Jeremy playing as well now?

D No, he's still on my bed watching his video. And there's one owl, he'll either spawn in that nest or somewhere around the barn. And I forgot how to fly so I just jumped off.

Q So did you teach yourself how to....or are there instructions or....

D There's instructions if you click Controls, so I opened it and now I can hide my controls if I want to.

Q What do you enjoy most about the game?

D You get to be animals and you get to find out the life of animals. And I just like the wild and all ??? but my favourite animal would have to be the wolf.

Q Yeah. Can you be a wolf in this game?

D No but I know a different game what you can be a wolf in, but I can't remember the name of it. But if I look back into my Roblox history I can probably see that game. I can go back on that game. But it's quite laggy for my computer because it's an old game, so I don't really play it that often. I also like wild savannah where you can be animals from the savannahs, like lions, cheaters, hyenas, but you've got to unlock animals but I don't know how and nobody else knows how, so we just stick to animals that we can be like the cheater, lion, leopard, caped buffalo, marshland stork. And I think there's about three more but I can't remember them. I remember the Thompson gazelle.

Time 1:00:15

Q Yeah.

D And in general I just enjoy being animals. I like survival games, or games where you can be different animals. Right there I didn't realise what that hawk tried to attack me and I....that hawk attacked me there and then killed me before I dodged it.

Q Oh yeah.

D I was just looking through the little t-shirts you can get.

Q Oh, so you can get.....

D Get t-shirts if you've got Roblox, you can buy them.

Q Oh right. And is it t-shirts of the game?

D Yeah, because you've got the orcas, the eagle, this logo, then ??? logo. I wanted to get the eagle one but then I found out you needed Roblox, because Roblox got a new sign on Roblox from the last update.

Q Oh right, so is it like a new logo or something like that?

D Yeah.

Q OK. So that's that video finished, so we'll just go back.

D I was exploring in that one because I hadn't been on it for a while and they've created more different worlds, or games. There's ??? world, marine world, mythical world, and I decided to go on mythical world because I thought it would be fun.

Q So is this like.....

D It says 'buy immortal' because a mortal created the game, because you get to create your own Roblox names if you want to.

Q Oh right. So this is a game that's created by a Roblox user and that's his....

D His Roblox name.

Q OK. Have you got a Roblox name?

D Yeah, [states gamer name]

Q [Cerys's gamer name]

D And there's his castle? and then a bunch of ??? I've also got two friends called [girl's name] who play it. The first [girl's name]'s name on Roblox is [gamer name], and the other one is a name I can't remember but I know her avatar look.

Q So do you meet up online?

D Pardon?

Q Do you meet them online when you play, or do you just....

D On games, because you get to join each other's games if you're friends and stuff.

Q Oh OK. So in this game here are you going to meet up with anybody, or are you just going on it to see what there is?

D See what it is. I chose a demon. I'm just kind of exploring the game at the moment. I didn't like the music so I'm trying to shut them up by hitting them.

Q It is very gloomy isn't it?

D Yeah.

Q So the demon's sort of appeared in a demony part of the kingdom, or demony part of the land, or....

D Yeah. It's the demon's area.

Q Oh yeah, there's another one. So what's that?

D It's a porthole that you can go through to get to different dimensions.

Q OK. This looks fun.

Time 1:05:00

D I want to try and unlock the lion.

Q How do you unlock things?

D You get points for survival and all those points you can use to buy other creatures. I think I'm a soul.

Q Oh!

D Anyone can be it, and you're just like a spectator that goes round.

Q Oh right OK.

D Because I don't have anything in the corner to tell me about things that I could have, that I would normally have. And now I'm just exploring the emotions and I'm trying to get it to go away, but I can't get it to go away so I'm just trying to press on different ones to try and get them away.

Q Oh right, so they disappear from the screen?

D Mmm.

Q So are you visible to other players?

D I am slightly visible but mostly I'm like a shadow that's just moving around. I'm transparent but I've still got that little bit of non-see through....I just make ground or the ariel go a bit more black. I've just noticed I can fly around as this.

Q Ah, so is this something you've just discovered about the....

D Game.

Q Yeah.

D Yeah. And there's other people that's been playing for a while and have a lot of different creatures. There's a big ??? in the background that the birds come to attack.

Q Would you like to move the video on and see what else is on here?

D Yeah.

Q OK. So do you want to talk about or look at, watch back that, is there anything you'd like to watch back?

D No.

Q No? OK. What was that? Is that the same game?

D No it's a different game.

Q OK, shall we have a little look at that?

D Yeah. I'm playing on Super Mansion Tycoon where you get to build a mansion by getting dropper, these little kind of dropper kind of things that will drop down and give you money once it hits the area where you can....whereas your blocks will turn into actual money.

Q Oh right.

D And I've finished my mansion, I've just got a few more things to go, like things to make me....I've got some trials to go and I've got weapons to go. Because you can put a force field up if you want to, but if you want to go into combat you can get the weapons out of your basement if you want any upgraded weapons. And I've unlocked, I think, three of them. And they're the most expensive ones so I was assuming that they would be the best, but I'm not quite sure about that.

Q Oh OK. So what's your mansion like?

Time 1:10:00

D You don't really get to customise it, it looks like everybody else's, because the creator made the game so that all mansions look the same. I was waiting for it to be loaded.

Q Ah OK. So how are you using the GoPro, have you got it in your hand there or....

D Yeah I'm using the tripod stick to hold it.

Q Ah OK.

D Because I clip it back together and then I just hold it and.... I was hoping I'd really like blue because my favourite colour is blue.

Q Oh right.

D And this is my actual robot, this character, that's how I first managed to make my character look.

Q So could you tell me a bit about what your character's wearing?

D I've got Robux? twice because I've got this other character that was now deleted from the game, and I got Robux from that. And to get 400 Robux it's around £5.

Q Ah right OK.

D So I got Robux. So I got Blocksberg, I got Wings on Wolf 's Life 4. I got lots of other things, with my last 5 Robux I got these trousers I have on this character. And on this character I've also got a kind of jean kind of jacket which then has a white jumper underneath, and on the white jumper you can....on any sort of clothing or ??? shirt you can add a little kind of sticker. So I added a husky.

Q OK. And when you say it kind of costs or you have to buy things, is that buying things in the game or do you need to use....

D You need to use £5 of real life money to get the money in the game. And in the game for £5 you can get 400 Robux.

Q Right OK.

D I just had to log it. It doesn't happen all the time but it does happen some of the time.

Q Oh that sometimes you go on to it and you're not logged in. So how often would you say that you play on the computer?

D Whenever I have the chance.

Q Yeah. Do you go on any social media at all or anything like that?

D I don't know what it is.

Q Like Facebook or WhatsApp or things like that.

D I've got WhatsApp.

Q Have you?

D Yeah, on my computer ???

Q Aha.

D ???

Q What do you use WhatsApp for?

D My friends have it so I just went on there so then I can be with my friends.

Q When are you likely to use WhatsApp? Do you use it....is it like in the week or weekends or evenings or....

D On weekends. This is Wolf's Life 4 and you get to create your own....well...

Q OK so is it downloading at the moment? And is this a game you've played before?

D Yeah.

Q And so you get to create your own world?

D Yeah.

Q So is it like a.....what kind of game is it, what would you describe it as?

D You get to create your own worlds and I would describe it as a role play game.

Q A role play game, OK. What do you like about role play games?

D Just pure it gets you what you like, and you install Roblox. It's because I've recently got my computer, it kept crashing so I had to....my dad's had to do something what re-starts it and it's deleted all my games.

Q Oh OK.

D So I'm having to get them all back.

Q Oh no! How many games did you have?

D I can't remember because I only go on to main ones, just Minecraft and Roblox.
That's my phone ???
