D John (5)

D It's a game what you put on your eyes, play a game.

Q2 And then you see the game in front of you, yeah, so that's virtual reality, so you know what that one is. But have you tried it before, have you played with it or do you just know what it is?

D Mummy, you just buy me one.

Q2 Brilliant! And so do you know what this one is? What would you say this one is? Have you seen it before?

D Yeah, a laptop.

Q2 A laptop, yeah. And have you used a laptop before? Have you ever played on a laptop?

D ???

Q2 Do you know what this one is?

D Yeah.

Q2 What is it?

D It's a toy bikey?, when it looks it closes the eyes.

Q2 It does close its eyes doesn't it? And does it talk?

D Yep.

Q2 Have you played with one before?

D We did Alexa, a small one and a big one.

Q2 Have you played with this one before?

D No.

Q2 No. And did you say that one's Alexa?

D Yeah.

Q2 And you've played with Alexa.

D And this is Alexa internet hub.

Q2 Oh I see, so this is the Alexa internet hub and this is the Alexa that you talk to?

D Yeah. And you have to talk, you have to take the black thing up to talk. And the other one I really wanted to ??? put it back together and put a white thing on the front where you just hold it, then you just put it in the plug and it charged up to work.

Q2 That's awesome, you know how that works, don't you?

D Yep.

Q2 That's brilliant.

D I wonder....oh LEGO!

Q2 Mmm, LEGO.

D A LEGO road.

Q2 And have you played with LEGO? Yes?

D When I was at school.

Q2 You used to play with LEGO at school?

D Yep.

Q2 Oh awesome. Do you like LEGO?

D Yeah.

Q2 And what do you like to do with LEGO?

D Just big, the big not small, not these.

Q2 Not those ones, but is it just different LEGO? Yeah?

D The bigger ones.

Q2 I see. So you play with big LEGO at school.

D ???

Q2 Do you know what this one is?

D Oh!

Q2     Have you got it?

D       This is the game player.

Q2     A game player, yes. So it's a bit similar to the Sonic that you've got at home, isn't it?
