

Q Julia Bishop (researcher)
Q2 Beth Nutbrown (researcher)
A Susan (mum)
B Craig (dad)
C Alison (6)
D Chloe (4)

Q So then these GoPro films....

D That's our bedroom.

Q2 It is your bedroom isn't it?

[F2c_20190829_v008 plays in the background]

Q ??? Alison.

A I was trying to explain to her not to address it like the Kindle. She thought she was on Kindle.

C Bye bye mummy. Bye bye.

Q ???

A Yeah, I left them to it and I went and did the ironing and I left them...

Q Was that your plan to...

A Yeah, try and make it as natural as possible, which clearly didn't happen because Alison's spinning around and playing up to the camera.

C I'm sitting up with you. I'm sitting up with you.

Q Do you want to sit here? I can shove up.

C You've got my mummy. You don't want to catch it again do you? You've already popped it. Like you said you were. Why is my dress in there? How did I get there when I'm holding the camera?

Q So whose idea was it to get the LEGO out there?

C Mummy.

A What are you doing there?

[F2c_20190829_v008 plays in the background]

D Chloe wants me to film her, not me.

D Because Alison's annoying.

A Yes ? ??

C Were my legs coming in because I was standing up. Were my legs coming in because I was standing up? I was standing up.

C ???

D I knew it wouldn't fit.

Q You knew it wouldn't fit in there. What were you making?

C A fire.

D A fire.

[Video plays]

D I'm filming it [i.e. using Beth's iPad to film the GoPro film F2c_20190829_v008 being viewed on the laptop – this is F2c_20190829_v005]

Q2 Are you filming it? Press record. See that red button there.

C How did that ?? I didn't colour it.

Q How did you decide what to do with the camera on?

C Mummy put it on.

Q Yeah and then how did you decide...

D Why is the red light on?

A It's just the reflection from the camera in front of you, so it reflects onto the shininess of the box.

Q What were you thinking about when you had the camera on? Did you imagine there was somebody inside it or something like that that you were talking to?

C Yeah, talking to you two.

Q Oh you were imagining us? That's very nice of you. You're very good at explaining, that's very helpful.

Q2 It's quite long so I don't know whether you want to watch...

Q Yeah. What's happening here?

A So she's just said, 'Can you hold on for a second?' to the camera.

Q Yes.

A And covered it and then come into my room to show me something that she's just found that's been lost for months because it's been in that LEGO box so we've not had it out.

D It was that magic carpet.

A I'm glad she covered it because my bedroom was a mess at that point.

Q Why did you cover it? Or did you just feel you didn't want to film mum's room?

A Like a pause, I think.

Q Yeah you just wanted to pause it. That's very tactful.

A Yeah I know I was impressed.

D How did that get that way?

A Because you laid down on the bed for some reason.

D No I'm not.

A You are because you're wearing it.

Q Yes, it doesn't change, like the iPad does. It doesn't change the picture to the right way up.

D No.

Q So when you lie, it goes sideways too. If you're sideways it's sideways.

D I'm changing my baby.

Q Oh are you?

D I'm changing my baby's nappy. It's all stinky. ???

Q Oh that's, is that on, are you covering the hole or...

D No.

Q Oh no you're not. Oh that's it.

D ???

Q I've just got to get this [Chloe filming Julia]. This is the come uppance of the researchers.... get my go now. So I tell you what, you film me and I'll take a photo of you at the same time. Shall we do it like that?

D Yeah.

Q Go on then. Ready, steady, go.

- C Right my turn now, Chloe.
- D That is a long long video.
- Q Is it?
- C We're doing Barbies too.
- D Oh my arm is hurting.
- Q That's fine. I've taken my photos now if you want to have a rest.
- D I'm Gizzy!! [one of their cats]
- Q So were you just trying out your camera with lots of different things to see how it would be? What do you think of the film so far?
- C The film's good.
- Q Is it what you thought it would be like?
- D Yep.
- Q Yeah. It's a very good film.
- D It's in my way. I was videoing it.
- C Can I have a turn?
- Q Is this all right?
- C I'll take a picture of you. Why am I just taking a picture of your phone?
- Q Now what am I going to look like in this one I'm asking myself.
- Q2 So if you press the red button and then can you see on the, can you see the photo?
- C Yeah. I don't know what I took a picture of.
- Q2 So that's going to be a video.
- C I can only see red.
- Q Oh yeah, what's that?
- ???
- Q You sound like you're getting frustrated. This is quite a long one. Should we change to one of the ones you did?
- D Yeah.

Q Obviously we've seen Alison's one and I promise we'll look at those in a bit more detail when we're back at the university.

C Chloe, you like to tip everything out.

D Then it's ??? everything out ???

Q I saw your toes then, your legs.

A Having the camera on does make them tidy up their room . Mm, I do say it on camera because I could hear them, when I was doing the ironing I've been trying to get them into the rule of one thing away as something else comes out.

Q Sorry we've not been sticking to that today.

A No, it's all right and they were playing with blocks and they were wanting to get their Barbies out so I said 'Right, put the blocks away and then get your Barbies out' and then I could hear them talking to the video about tidying up.

Q What might be useful to do actually is to do a tour of your house sometime, a sort of of the technology in it. It just occurs to me that when the GoPro for that would be amazing.

A Yeah. The Google Hub as well.

Q Yeah, that's a good idea. Yeah that'd be fantastic.

A Did you know you've got your dress on the wrong way round?

Q So how do you feel about this, Chloe? Do you like that film?

D Yes.

Q Yeah?

D Whoopsy daisy. Whoopsy daisy.

Q Ooopsy. I've done that before now. Sometimes I've put my nightie on back to front when I'm too tired at night and I suddenly realise I've got it back to front.

Q2 Where's the music coming from?

D ?? ?

Q2 I see.

D It's annoying!!

C Chloe's, Chloe's doll is in there.

D ??? kitchen...

Q Ah, that's brilliant, so you've got your favourite thing on there. So shall we pause the films now and I think Beth and I will have a good look at those and we'll come back and ask more questions next time.

Q2 So there's a, there's another one before that with Alison still wearing it.
