

Q = Main interviewer (Cath)

Q2 = Second interviewer (Beth)

A = Mum (Rosie)

B = Dad (Thomas)

C = Child 1 (Leo, 5 year old boy)

D = Child 2 (Alfie, 3 year old boy)

Trilingual family (English, Spanish, Turkish)

Q So what are you saying there Alfie?

A We have this, but this is you and this is Leo, yeah?

D ???

Q What is he saying?

A He has this game.

Q Oh you have that game? Do you. Well that is you with the game.

D Leo is a pilot.

Q Leo is a pilot, that's right. What do you think of that picture Alfie? Thumbs up, you like it. OK. That is....it's a little bit out of focus that one isn't it?

A Mmm. Oooh Clash Royale.

Q It's when you were playing Clash Royale. Is this...the one that you want, if you want to say if there's any that....shall we go through them all and then just decide which ones you want there?

D ???

Q That's Clash Royale again isn't it? And another one.

D ???

A He's saying the name in Turkish.

Q Are you? What's the name in Turkish?

A Calagee. The castle, he's saying 'the castle' so that's why he's 'calagee'. Because they are destroying the castles, the towers. Oooh.

D ??? (in Turkish)

A Mmm.

D Fire Lego.

A Fire Lego, yes.

Q Fire Lego, fire engine Lego.

A Ah this is nice.

Q Oh that's a nice one isn't it? Do you want to swipe across? Have a swipe. Oooh. Oh I like that one.

A Oh this is even nicer I think.

Q That's lovely. What's Leo doing there? He's got his football shirt on and he's got a weapon. Oh that's an adorable one Alfie.

A Your rabbit.

Q Oh is that your rabbit, is that your toy rabbit?

A And also I am seeing the monkey here behind you.

Q Oh those are your soft toys aren't they?

A ??? (in Turkish)

Q That's Leo with.....

A Another game. We like this one. This one not that much but he likes this one a lot.

Q Do you like the lava dragon?

A Yes. Because when you win the dragon flies. Yah.

D Even more.

A Oh, what is this?

Q I don't know. Oh that looks like a Lego logo, so it looks like....

A Maybe that here more games.

Q Ah, I know, yeah I think he was showing us the leaflet from the box that had all the different Lego games, and he was showing us which ones he's got and which ones he would like.

A OK.

Q No? Is that a no shake?

D ???

A Showing how to be of ??? instructions.

D Oh no he's seeing.

A He's seeing.

Q Yeah he's seeing Alfie, he's looking at it isn't he?

A Oooh....he's building the.....wow Alfie.

Q That's you.

D Leo.

Q Leo. There's you and Leo with the track. Oh and that's when you play on the window sill isn't it?

A Yes.

D Mmm. Antarctic Lego.

A Whoops, yeah, Antarctic Lego, he says Antarctic Lego.

Q Oh I like. Oooh can we go back and look at your fantastic t-shirt again there Alfie.

A Oh, 'digging is fun'.

Q And what are you playing with there, can you tell me?

D Antarctic Lego.

A Antarctic Lego.

Q Antarctic Lego.

C Let me see.

Q Let you see. Of course you can see.

A But he is using this syringe to give more ???

C ??? made that.

Q Did you.

C And I made that.

A Yeah, but do you remember, Alfie was using this. Let's show the ???

Q Whoops, there it goes.

A Do you remember the syringe?

Q Is that a Calpol syringe, like a medicine syringe?

A Yeah, they are allowed to use that syringe also.

Q Oh right.

D ???

C On Lego plastic play I've done ???

Q Oh look, and that's when you were drawing. Was that your owl wings Leo, you were drawing owl wings weren't you?

Time 5:00

C Yeah.

A Wait for ???

Q And what's that game?

C A race. That's a race.

D ??? basket.

A Paper basket yes, ???

C Look, that was is helping the baby make a big machine.

Q Mmm.

C Shall I show you baby....look, look....that one is Clash Royale.

Q That's you playing Clash Royale in your pilot outfit isn't it?

C Yeah.

Q You're just enjoying the swiping aren't you? And there's a musical instrument.

C That's a piano.

Q That's the piano that lights up. Is that it? Is that finished?

Q2 What's your favourite thing to play with Leo?

C I didn't see the first thing.

Q Oh shall we go back to the beginning? These are some lovely pictures. Oh wow I love that picture, it's just so great.

A Yes.

C It's Clash Royale.

Q Clash Royale again.

C That's all of my pilot kit.

Q It is, the whole lot. And that's the start. You love that picture don't you Alfie? That one.

C ??? actually grown again.

Q I think that's it. That's the start of it. So do you want to have a look through and decide?

C And you know, actually at that game you have to ask a question on the real place, like fish cooker, I call it fish cooker.

Q You call it fish cooker?

C And that's my football team.

Q That's your football team? Who do you support Leo?

C Istanbul.

Q Istanbul.

C And Alfie Espana.

Q Alfie supports Spain does he?

C Yeah. Is that the first bit, yeah? And then....

A Are we going to say number, or we will have to follow....

C Do you know at Clash Royale I saw a scary level. It was a skeleton carrying a bottle of water.

Q Oh was it?

C And you don't chuck it, you just don't chuck it, like ??? always, once the level is nice and high and I zap the ??? Shall I show that?

Q Yeah.

C And then there's no E level as well. And the first level's so simple. It's starts with the red and just grass sit, whoever the grass, that's how it starts.

Q Is it how it starts?

C And after he zapped this. I can't remember. So I shared a scary level, I was scared of it.

D ???

A He said all of them is really nice.

Q Ah....you like them all Alfie?

C I like the Arctic one.

Q You like the Arctic one?

A Yeah I like the Artic one as well. And I like your sword one as well.

C And I like the sword one as well, and the Clash Royale.

Q It's a really good sword Leo, where did you get it from, can you remember?

C Which one?

Q The one where you're with the sword that you're holding up really high in the photo. And you've got like a red thing over your face. What's that?

C This red thing on my face? I made it at school.

Q Did you?

C It's ??? I think I put a white on leaf. That's funny. Or yeah, one of the secret place one.

Q Whoops....oh I'll tell you what shall we just.....ah there we go. You are actually very ??? Alfie.

C Let's go back there.

Q Let's go back there.

C Yeah.

Q What do you like about that picture?

C I like it because that was when it was our room.

Q When it was your room. Is it not your room anymore?

C Actually that one, it was our visitor room.

Q Your visitor room. Ah, when you had the visitors the other week?

C Yeah.

A What did you do with them?

C We also do a lot of fighting instead of nice games.

Time 10:00

Q A lot of fighting? What, with the visitors?

C No not the visitors. Look, we are fighting to us, not to the visitors.

Q Oh OK. Oh are you talking about your puppy?

C No.

Q No, OK.

A You bought this one, in the hat.

C Yeah.

A You made role play with this I think.

C Viking.

A Viking.

C Viking, that's like 4 or 5 times get it. And that was another thing, and it says Viking ??? you collect these to get the Viking things. Like it's not only the hat, I have to get the body as well, there's also the shoes.

A Alfie do you remember Wall-E in the museum?

D Wall-E!

C Yeah but I needed the....to get it.

A Yes the books, therefore get, but in the Liverpool Museum they made a....I mean part of the exhibition, they place Wall-E's next to the object and then the children have to the trail and to find the Wall-E's and write about where they found the Wall-E's.

Q Oh right.

A So Alfie did trail, ah Alfie, do you want to show your sticker and those clothes.

Q I've heard that Alfie likes finding things.

Q2 Oh wow a pirate, shall we take a picture of it?

C A 3D pirate.

Q Oh you want to show us that?

Q2 Oh OK.

Q Shall we have a picture of that? Shall we have a picture of your sticker Alfie?

D Yeah.

A And maybe we can find your trail...

Q Can Beth take a picture of you showing your sticker?

Q2 Do you want to show it to me?

Q Show it to Beth. Oh, you're good at making sure you get your face in shot aren't you?

A It's this one.

Q Ah the Wall-E Trail, OK, that's great. So is this the trail that you did Alfie?

D Mmm.

A We were in the first floor. Have you ever been in Liverpool Museum?

Q No I haven't.

A So you are able to see also the ground floor, there is an exhibition on the ground floor as well. And there was one, a model of that pirate ship, something like that. And then he was, even from the first floor spotting 'mummy, mummy Wall-E's there.

Q Oh Alfie.

A And then we say 'no you are joking'. And then we went down and he said 'look, look, I told you'.

Q Have you got some Wall-E books?

A Yes.

Q Have you?

A But he is not interested that much with the Wall-E books. He in straight with the Lego ones. But the same mentality, look for something.

Q Oh right, so you've got some Lego look-for books have you?

A Yes, BB8, C3PO....

Q Oh I think I've seen those, the Lego Star Wars.

D ???

A And also I think because of this project now Leo is more with....you see money everywhere. 'I have that much money ??? I have £100'. Really?

Q Oh are they making out cheques to themselves?

A Yes.

Q That's great. So how do we....do we just write down the code number for the photos that you would like?

Q2 I think that's the best thing to do, yeah.

Q OK.

A So the long ones we will...or just pure....

Q Yeah I will just write down the....

A OK this one. [file number] sorry, [file number]. Maybe from the same day [file number].

Q And that was the day they were playing Clash Royale wasn't it on the sofa?

A Yes. So again [file number]. Oh this is good.

Q That is a lovely one of Alfie isn't it. He's holding his soft toys.

A Again same day, [file number]

Time 15:00

A This is nice as well. This is nice as a general view. Screenshots I think from a video.

Q I think it....yeah it's a screenshot from a video. So screenshot [file number]. OK.

D Lego.

A Lego?

D ??? Lego.

Q Do you want the tin?

A I think this is nice because of Lego scene. (in Turkish) I will taste, I don't know the taste.

Q So that's 1, 2, 3, 4, 5, 6.

A This one as well.

Q Ah...yeah.

A Also to be fair. Because when the book comes and it's only Leo!

Q OK.

A Is that 10?

Q That's, 1, 2, 3, 4, 5, 6, 7, so three more.

Alfie crying, A comforts him (in Turkish)

Time 18:34

Q So these are just some of the questions that... I think we've talked about the kinds of play that both Alfie and Leo like to do and the sort of play that they like doing indoors and outdoors, and how their play has kind of changed over time. I think we've probably sort of covered that.

A Yes.

Q And I think we've talked quite a lot about how technology features in their life and what they're interested in and what they like to play with and things like that. And I think as well that we've probably, as far as I can see, we've sort of covered questions about different types of play with technology.....what they'd like, and kind of like what kind of decisions are made about technology. And I think that as well we've kind of covered the questions about safety as well. So I think there were some things that we didn't ask you. We have asked about things like data privacy and stuff. One question that we'd like to ask is whether you personally, and it's not something that....would like any advice or guidance on issues relating to data privacy and safety. Where do you get your sort of knowledge from about data privacy and safety?

Time 20:00

A Again, online. The actual thing was, because there is no trustful source they tend to go, so that's why we are reading. And there are also some blogs, because some people take them very seriously and writing blogs about this. It is general, but some part also related to the privacy. Because for example there is one blog I follow, it's called Screen Free Parenting,

because in that blog also they were talking about this and giving advice. But generally the idea is screen free parenting.

Q What's the first word sorry?

A Screen free.

Q Can you write that down, ah, screen free parenting. Ah right OK and this is....

A It's one couple, husband and wife, they have kids as well. Because the main idea also they are giving some advice and suggestions on play ??? Because even they are talking a lot about you create the toys together with the child and then play with them.

Q Oh right OK. How long have you been following this blog?

A I think 3 or 4 years.

Q 3 or 4 years. Was this something that you kind of decided to look up when the children were really small? Was it a conscious sort of choice?

A Yeah. And also I sign up for their newsletter, so that's why they are reminding me, if they upload new things I am receiving the email and then I'm going and checking. And if I don't have time and then I'm going at the end. So I'm reading when I have time also if I miss something as well.

Q OK, gosh that's really interesting. So can you remember what made you look up this type of blog in the first place, what sort of...

A I think it probably some of....and I'm also surfing in the web. So I saw maybe one of the Mum? Net? wise or, I don't remember exactly what happened. But normally it's coming when you are surfing around and I see. And also Instagram it's happening also.

Q Oh on Instagram, OK?

A Yes. Because when you are reading one comment and then they are referring another place, and then you are going and checking that account, and then that account has also blogger and then you are going to that page as well.

Q OK. So what sort of advice is it? Wow.

A But I do it, I forget to tell you before, but they have their own Instagram account as well.

Q They have? Oh yes I think Thomas mentioned it last week that they have their own Instagram.

A Yeah because we decide ??? to leave them in the future, he started. But it's a closed account so it's not open to public. So the family members, the friends, the relatives who are far away, and they are using their own account to post their photos. Because also I'm thinking as a mum, in my account I don't want to post a lot of them because I have also friends, they

don't have no kids, they are single, so I don't want to be a mum always posting the kids, kids, kids, their lives – first day in the school, last day in the school. So that's why. I am posting still but... Also we prefer to post their photos in their accounts for the people who are really interested with their lives.

Q So these are photos that they've taken themselves?

A Taken themselves, or we are taking and we are posting. Because we are the ones posting.

Q So I think Thomas said that Leo took a selfie at some point. Do you know where he got the word 'selfie' from?

A I don't know, maybe because of us. We didn't teach but when he's seeing us, or when we are saying 'let's do a selfie all together'.

Q Ah right OK.

A Because now Alfie is also doing for himself.

Q Is he?

A Yes, and making funny faces.

Q Oh so Alfie is taking his own selfies.

A If he is....I mean taking the phone.

Q Oh right.

A Because he doesn't know the password like the brother.

Q So Alfie doesn't know the password but Leo does?

A Yeah.

Q Oh I see, yes.

A These are his.....

Q Does Alfie use the word 'selfie'?

A Yes.

Q He does?

A Yes. So this is his selfies!

Time 25:00

Q Ah....that's fantastic.

A He will sometimes ??? 'I can touch it mummy' when they are being together. I think they are learning when they are doing together with them.

Q Right, so they're learning from you how to use the.....

A Yeah.

Q OK. Do you think they know what Instagram is?

A I don't know. I don't think so because we didn't explain them so....

Q Right.

A But he knows that there is a place, because also he is making scroll down or scroll up with the Instagram, but also he knows the Like or Not Like. Some of the photos he knows to Like so...

Q OK so they know about the Like button?

A Yes. And then they say I Like it, or I don't Like it. And he knows to tap two times to Like it, and not do anything not to Like it.

Q Is that Leo?

A No Alfie.

Q Alfie knows to do two taps to Like.

A Leo is not interested much about Instagram, Alfie is more.

Q Oh OK. So would you say Alfie is showing...does Alfie show quite a bit of interest in technology?

A Yes, always in more like taking tablet? from your hand.

Q I noticed, yeah.

A Leo never. I mean Leo just follow you and if you ask him he has the intention to do it. But Alfie always asking to use it – I mean for everything, not only the general technology.

Q OK. So has Alfie's play sort of changed in any way with technology being around?

A I think yeah he's more active in my belief, or more participating. Or he would like to be part, also he would like to do it by himself, 'let me test, let me try, let me push'. Or he's saying 'I know, I know, I know' but then ??? can do it then. So yeah I think he's more in it as a behaviour wise, a change wise I mean, he's not just watching, he would like to be part of it.

Q Why do you think that is?

A I think again it's....I'm thinking maybe because of the brother. Because the brother is using more freely so maybe that's why he would like to do the same.

Q One thing I was curious about as well, I think Thomas mentioned that sometimes in the day Alfie sort of gets a bit of maybe extra technology time. Is that case? Extra screen time sometimes, is that the case? Or I might have misunderstood that. I just didn't know whether...

A Now comparing to him....erm, yes. Because now he's watching with him, but two times a week, sometimes daytime, he's taking as well. Again comparing to him, to his brother, his brother is receiving the same amount when he was at the age of Alfie. Because now I'm thinking like that he has a screen time in the school, so we are not counting because we are not able to count that amount of time, we don't know it. But when I'm going there sometimes I'm seeing that they're watching YouTube videos, or they are learning from there. So also he has a hidden screen time in the school. And we are asking, they are saying 'yeah we are using'. But even the board sometimes ??? is a screen. So also now I'm seeing in the Alfie nursery in the afternoon they're also putting iPads for them....

Q So he's using...at nursery he's using screens and things like that.

A Yes.

Q OK.

A Even if he learns something there he is trying to explain me because he would like to watch again. And then I am asking to the nursery.....

D ???

Q What is Alfie wanting, what do you want?

A He say that he hit himself with the Lego, the block. And I say that, and he is asking that I ???

Q Oh, have you got a little ice pack?

A Yes.

Q Oh did you get bumped with Lego?

A Because I say 'be careful with Duplo, it's hard and it can hurt you'.

Q Oh yes. And you've got bumped on your cheek with Duplo. Poor Alfie. So at nursery they're using tablets is it and things like that?

A Yes. So that's why also he is...

D (in Turkish)

A The cold killed the pain.

Q Oh, the cold is working is it?

Time 30:00

D Yeah.

A Yeah but comparing to his age to Leo, he is demanding, he is coming with the names or he is coming with the actions. I mean for example he is choosing, he is saying 'I want to watch Lego' or 'I want to watch Octonauts' or 'I want to play Peg and Plus' in the computer. So he is giving me his choice or his order.

Q Ah right, so he's coming and asking specifically for things.

A Specific things yes.

Q And that wasn't the case with Leo?

A No, at that age, no. I mean but again I'm thinking that he has the brother, he is more aware of what is happened around as well. And also in his nursery there was no tablet or iPad, but now in this nursery there is iPad. And it start from the 2 years old. Because he had this sleeping difficulty, the rest of the kids were sleeping and he was looking at iPad with the teacher.

Q Oh right OK.

A And I asked them again now, they say that now they are teaching like letter sounds because of the age, they are preparing him for the school next year. So he is trying to write his name, or he is watching this letter cartoon teaching the sounds.

Q So he's learning at nursery with the technology.

A Yeah, I mean they are using as a learning tool the technology there, not just watching something. Or he knows because of them how to play the CD player, because they are listening to music as well there and they are changing or asking for music what they want to listen.

Q Yeah OK.

A So at the end yes, I think his screen time comparing to brother is more.

Q Is it more?

A Yes.

Q And that's partly because of circumstance, but also partly because he wants it, is that right?

A Yes he wants it. And also when I am saying screen time it includes everything, the game, the apps, or is a cartoon, or is a play on computer.

Q OK. So kind of how important do you think then is sort of digital tech play to Alfie? Because I think you think it's quite important for him or....

A I think it's more important because I don't like the just cartoons or TV programmes, making them just watching and became non-active. So in the technology in more education or games, they're active, so they are responding, they are thinking, they are trying to do something. So that's why I'm thinking that if they are spending more time on that kind of tools as a screen, it's helping them. I mean to ??? or to give them imaginary things, imaginations. But I mean most of the time they are not alone, so this is maybe the difference I don't know also I feel the thing. So 90% of the time when they are doing this, me or Thomas we are together with them, so we are not letting them alone. Because we are also getting action, we are talking or we are asking when they are doing, or surprising saying 'oh really?' taking part in it.

Q Do you ever use like a ban, like screen bans, if you feel it's a behaviour thing? Do you use is as a sort of reward/punishment thing?

A Er....the ban you mean?

Q Yes, do you ever use sort of screen time to ban it as sort of behaviour incentive, or....

A Ah yes. We say for example, is that correct example I don't know, but if they are not tidying totally here they don't have the TV time. Because from 5 to 6.30 they have TV time during the week days. So after you for example if they are not tidying they cannot have the TV time. Because sometimes you resist ??? Leo, he is not tidying. Alfie is very good for tidying. But again the problem is if the other one is not tidying both of them are not getting the....

Q Ah yeah. Is this Alfie's thing for finding things, he likes picking things up?

A Yes.

Q Oh I see. OK. So I think we talked about, when we were looking at the laptop and things like that, what kind of play would sort of Leo really enjoy in relation to technology. What kind of play do you see Alfie enjoying in relation to technology? When he's playing with certain sort of tech mediated toys what kind of things do you recognise him getting excited about or happy about, or what kind of games would you say?

Time 35:12

A Again, like for example Leo is very excited with numbering or this kind of thing, or education and spelling. But I think because of the age Alfie is not into that games so he is more like painting or colouring, or finding again. Because again some games they are showing you one object and he is looking for that object.

Q Ah OK.

A And also like the cat, I forget the name, Tom?

Q Right?

A The voice recording and then hearing your voice.

Q Oh yes, I remember that.

A Yes, so he is making fun more with that games. So it's different also.

Q Oh so he likes a different style of tech play to Leo?

A Yeah.

Q And what does Leo sort of prefer, does he prefer the kind of ones that he showed us the other week?

A Yes that ones.

Q So for Alfie then you've got...he likes finding things in real life, and then he likes finding things....

A Yeah he never ??? so he's in the laptop or he's in the book or he's in the outside, ??? because even though I'm saying to him that 'you can find it in the home' and then he's saying 'oh let me do, let me do where I saw it', so he's going and looking for it.

Q That's amazing, that's really interesting. I've just got a couple more questions which are related to Lego. I think when we first sort of met we talked briefly about how they had sort of seen Lego movies and things like that, but I don't think we sort of talked more in-depth about kind of like what sort of films. I noticed for example that they've got a Lego magazine, so is that something that they regularly get, or is that....

A No, because in UK it's not possible to receive the magazine regularly unfortunately. But this is the magazine, we had it, so we had two issues like that and he is checking the issues. But also yes he likes to read the normal Lego, let's say advertisement, the book they are giving in the store. But I'm not sure we can get one in that because he's every day coming with another idea 'mummy I like this one, mummy I like this one'.

Q So Leo has the catalogue from the Lego Store.

A Catalogue, yes. But I'm hiding because ??? I am giving the magazine or the other things because also he is looking and asking different things, it's not just advertisement of the new toys. So related to Lego, I mean for example not the movie, Lego movie, he is more interested with the team ones, like Batman, or Galaxy, or Ninja, that ones. And also I am seeing him different....

D ???

A And also with Leo I am seeing that. For example last year, it's a very recent example, he watch Inside Me and he was not that much interested, even he didn't finish the movie.

Q Oh right.

A But last trip in the mid term in the plane he'd choose by himself, because they are also able to use the ??? screen in the plane, and also the control also they know it, so he choose by himself again Inside Me and he watched that for a while. And when we return here he ask and then we found and we put. So now he is talking more about that movie because he is saying that, you know, Inside Me is about feelings. So now I am seeing that he's changing. So in the same movie he was not interested, but now he is interested more. And also we are watching a lot like Ice Age. I mean he like to watch again and again same movies.

Q Does he, yeah?

A Yes. But some movies he's really still scared.

Q Oh right, which sort of films are scary?

A Like the yellow ones, what's the name?

Q Oh the Minions?

A Minions.

Q Oh right, he finds them scary?

A Yeah he is scary. He is getting very excited and he doesn't know how to handle his excitement, running around the house, going to the room, he doesn't want to see. He say 'I know bad things will happen for the good people'.

Q Oh no! OK.

A And then he prefers to run away.

Time 40:00

Q Oh no! So just kind of one final sort of query really. On the theme of Lego again, what kind of toys or things like that do you think that perhaps would you like to see Lego maybe sort of developing in the kind of digital age – if you would like to see that at all, you don't have to....

A No.

Q None?

A Good question. No I think now they are really getting excited.

Q They are getting really excited aren't they?

A Yes. Moving things, I mean like the now the Lego Boost, or now the ??? or some picnics, so now they have the idea that to move something which they build up, and again with the technology which is iPad or something else. So that's why making them excited. Also me I mean as a parent when we are looking together. And also to mixture some of the

things. For example he is thinking about the Lego Boost, but also he is thinking 'I can combine it with...' because he was talking to you about also Minecraft and the same thing. So again he's thinking to open or close, but to do it not by hand, or to make the turn again something else.

Q So what does the Boost do that they really like about the idea of it?

A Again to control the move he says.

Q OK.

A Now, because I show him also the video combining Boost with the Arctic...

Q With the Arctic Lego, is that right?

A Yes. The active one is going against saying that I will lift up the things, he will use the Arctic and combine with the Boost. Or I will see what he's going to do when he had the Boost, it will combine with, I don't know which one. Because he is always coming with differences. He is saying that 'I will combine the volcano, I will combine with police' or....

Q Ah, so they've got big plans for what they would like to do.

A Yes. But again I'm seeing in the core to move. Because he says that in his dreams everything is moving around, like he is building up, but in the real not in his head we will see altogether then where they are.

Q Ah, so he's planning what he would like to do with it?

A Yes. He's always planning, he's observing, he's very good observer, and then digesting quite take a long time. And then putting out if he wants.

Q Have they ever played with the Lego Boost or a Nintendo Switch, or is it videos that they've watched?

A The Boost he had a chance to play a little bit, not at the moment, not with the iPad, in his cousin's house. So from that day he's asking, it's almost one and a half year now.

Q And is that in Turkey?

A Yes. So he saw in his cousin's house, but just touch it because then they put it away and they say 'this is not your age'. And then he says that I will be soon enough old to have Lego Boost, which is 6 years old.

D Yeah, yeah, yeah.

Q And Alfie sounds like he likes the idea of it as well!

A Yes. No but he already says that he wants robots.

Q Oh Alfie wants robots?

A No, Leo wants.

Q Leo wants robots.

A Yes. He says 'brother wants robot', he didn't decide yet.

Q Oh right.

A He's on Sunday but he didn't decide. No but this week his favourite was Duplo.

Q Was what sorry?

A Duplo, Lego Duplo.

Q Duplo. And this is what Alfie has been playing with this week?

A Yeah.

Q What's he been doing with his Duplo?

A I mean again he was playing with the characters and then trying to talk them.

Q Oh, playing with the characters, yeah.

A Yes playing with the characters. Because again there is Arctic animals there, the whales eating the people, the people eating the fish, and then the bear coming.

Q Oh wow, so lots of kind of imaginative things.

A Yeah. Now as you can see they are just playing with the McQueen.

Q Lightening McQueen.

A Yeah.

Q Right I think I'm going to stop there.

Time 44:20

Q If I record this as well. So this is something which you sent from when they were at the Eye Clinic wasn't it, is that right? So let me just put it on. So this was recorded in the Children's, is that right, the Children's Hospital?

A Yes.

Q OK. And what are they doing in the....do you want to watch it, shall we play it again for you Alfie?

D Yeah.

Q Because you're on here aren't you?

D Yeah.

A He will play tomorrow I think as well because we have an appointment again there.

Q So what is this that they're playing on?

A I think there's a ???

Q Is there? Oh yeah there is, yeah.

Plays video

A Leo (???) Super Mario?

Q Can you see what's going on there?

C Playing Super Mario.

Q Playing Super Mario. Where were you playing it Leo, can you remember?

C At....I had an appointment.

Q2 Did you? What did you think about Mario?

C It was nice. There's always nice.

Q2 What was nice about it?

Q Had they ever played this game before?

A No.

Q No they hadn't?

A No. So we introduced them in the Waiting Room because they saw that other kids were playing. And then they wait for their turn, because there was a kind of queue, waiting queue.

Q Oh right.

A So they play there, even the previous kids teach them 'you need to do, you need to do, you need to turn like this'.

C And there's something and when he gets from the bend in the road that like he can boost and go through the front.

A Yeah, even they teach you the boost, the boost.

Q Ah, is that when you speed up?

C Yeah and get to the first finish line.

Q Can you remember how you were feeling when you were playing it?

C Good.

Q2 Is that one? You've got it. Yeah.

A You see ???

Q Oh wow, you've found a video of....there's you and you're filming. What are you filming?

Plays video

A He's telling me that I close the curtain because there's a lot of sunshine, 'it's very bright, let's close it'.

C Yeah that one's my favourite. (in Turkish)

A Now the question is 'mummy can we go do that again to play with this, can we make another appointment'.

Q Oh right, that's a good incentive to keep your appointments isn't it?

A I hope you will not, you will not be sick.

Q Have you tried playing it since anywhere, or is it just played at the Waiting Room?

C At the Waiting Room.

Q At the Waiting Room.

A (in Turkish)

Q Ah, now I would like to ask you a little bit Leo about this as well. So can we watch this, your moons and stars, because I think this is something that...

C No it's games, boys team girls. It's against boys team girls.

A Yes.

Play video

C This is the moment where my rabbit goes down to crash toward girls.

Q Crash towards girls?

A Leo ??? he said that I need to hide now.

Q Oh is he shy? Oh I don't want to make him shy.

A No I don't know, maybe it's because of the....because he say that this is boys team, girls team fight.

Q Aha. And this was something I think I remember you saying that you did all together, you, Alfie and Leo.

A Yes. They paint the stars, they cut the stars. And we choose the sofa to put it and then we share it with the friends. We sent ??? video.

C This is the moment where my rabbit goes down to crash toward girls.

Q Alfie, can you remember what you liked about this?

D I not to like.

A He's more into it now Mario Brothers, because he's saying that why you don't have a video that I'm playing Mario Brothers, because he would like to show you also how he played Mario.

Q Oh. Can you tell us Alfie about how you play Mario? Maybe if you told your mummy and then she could tell us, what do you think?

A Well tomorrow I can make a video and send to you.

Q That would be fabulous. That would be really good.

Time 50:00

D ???

A Yes you were in the nursery, you were saying Superhero.

Q Are you being a Superhero there in that video Alfie? Which Superhero do you like the best?

C Batman.

D Batman.

Q Have you seen Lego Batman?

D Er....

Q Alfie, what do you feel like when you dress up? Do you enjoy it? Is it fun? There's you on a walk.

D Not dark, not dark.....

Q Not dark?

D What that?

Q That one. What do you like about that picture? Who is in that picture Alfie?

D ???

Q Are you trying to make it big? It's not a video, it's not going to play.

Q2 Oh you're close. There you go.

Q Yeah. Oh.

A Ah Leo, do you remember this game?

C Yeah, it was high up in the mountains.

Q High up in the mountains. And what are you looking through?

C I'm looking the top of that big rock.

Q You're looking at the top of the big rock.

C There's not real rock though, I just made it out of toilet paper.

Q Oh right, did you make them?

C Yeah. Toilet paper.

A He is almost ??? he likes to be sure, is that you Alfie, is that you.

D Yeah.

Q Does Alfie like zooming in on things on the phone?

A Yes he likes to do ???

C Zoom in, zoom out.

Q Did you think that they learned anything when they made that video, is there anything that you think that they learned? Did they do the filming or did you do the filming?

A Yeah they can do the filming as well by their own. They can take the photo. And with help they are able to share as well the photo and the videos.

Q Do you like watching that one?

C Look I win because I go like blood. The balloons are your blood.

Q The balloons are your blood are they in Mario?

C Yeah.

Q Sounds very gory.

C Jet booster. No it's not a jet booster.

Q OK.

D ???

C We get that mystery boxes, you get your thingy change.

Q Oh they're mystery boxes. OK.

C I've got a mystery box.

Q Have you? OK. OK I think we're going to have to maybe let Beth have her phone back now. OK thank you so much.
