

Q Julia Bishop (researcher)  
Q2 Beth Nutbrown (researcher)  
A Susan (mum)  
B Craig (dad)  
C Alison (6)  
D Chloe (4)

C ....me too.

Q Thank you. So Alison you went through a catalogue did you and had a look at what you might like for Christmas, is that right?

C Yeah and I cut it out.

Q That's lovely, what a lovely collage. Who are these people?

C I don't know what these are but I just want them for Christmas.

Q I see. What do you like the look of?

D And look at mine.

C And there's another one on the other page there.

Q Oh right OK, so is it....

C The one what I really want is that.

Q Oh OK.

C Because it dances by itself, you don't have to move it.

Q Oh my gosh, how do you know that?

C Cos we've seen it on TV.

Q Aha. I think I would like that one too, it sounds amazing.

D Look at this.

C Look at this rainbow.

Q Oh yeah that's a lovely rainbow.

C And then the ???

D And look, me going to school.

Q Oh lovely. Oh my goodness you have been busy in these books, they look fantastic. And I love the mixture of things you've done in them.

C That's when we went to Auntie Lesley's house.

Q Oh yes. That says Love.

D And look.

Q What's this?

C Lovely girl.

Q Lovely girl. Why did you write that, I don't understand?

C It's just her cushions.

Q Oh is that what they actually say?

D Look, I really want this.

Q2 Let's have a look. And what's this?

D Peppa Pig.

C And that says Love You.

Q So did you say it was your Auntie's house?

C Mmm.

Q And does she really have these cushions, were you drawing something actually was there? This is lovely. Is this the sofa?

C Yeah.

Q And this has got a lovely black and white, and there's like a zebra stripe on it.

C These are all hiding.

Q Oh yes, I didn't notice the little people in there. So do you like to play hide and seek at her house?

D And look, upside down, you could turn.....or you could put it on.

Q Oh, and there's the counting, 1,2,3,4,5,6,7,8,9,10.....

Q2 I love the colours in it.

Q ....coming. Ah, brilliant. How do you choose who is going to do the seeking? Oh that's lovely, I like all the colours.

C That's a princess.

Q Oh yes I think I would have known that. I just love her face. Did you copy that or was that out of your head?

C Copied it.

Q It's really, really good. Was it from a book?

C It's ???

Q So this is copied from a book, I'm just thinking how amazingly good the face is, it's like something out of Toy Story.

D Look, those are colours.

A Yeah this is an interesting thing that we've come across this past week, and you might enjoy this for your study. It's funny how it's happened when you guys are around.

C I've finished all of it, finished the whole book. So I thought that I can do more. And this is the princess what I copied on there.

Q I see. Oh has Beth got a picture of that? Shall we put them side by side to sort of show what you've copied.

A She's learnt how to draw through listening to instructions on Google Home Hub. She's started following a dad and daughter doing art things on the Google Home Hub and started taking directions from them and creating these lovely pieces.

D Mum, can I show you the Google?

A Because it's funny, this past week or two weeks they've learnt that they can get on to Google....

C The Google Home Hub. Are you going out....

D It's in the kitchen.

A ....you can't just yet, just yet. Can you do it after daddy's finished his work.

Q We've got to do the play tour upstairs first and then we'll do it.

A So these past two weeks we've noticed. But they've found out that they can load up YouTube on the Google Home Hub and they've started just watching it. Like instead of coming home and into the living room to watch the TV with me, the dynamic's changed and they're instantly in the kitchen watching their favourite things on YouTube.

Q Oh is that right Alison?

A They've started subscribing to the channels now because that's what they like. And one in particular is this dad – it's a dad and a daughter isn't it Alison – dad and a little bit older girl isn't she, she was little.....was she little in there or is that the mum I keep seeing?

C There was a big brother, and there was a baby, she was doing a baby, she was a baby when the big brother was there.

A Yeah, and he does a drawing and teaches the little girl, and there's a camera looking down at both of them to see how they put it together. Alison don't go in there just yet, Alison, let daddy finish his work.

Q Will you show us later?

C Yeah.

A I think....did I do some ??? on what I did. She took it upon herself to copy them on this particular one where they had to fold the paper. So they folded the paper like that, and then on those two bits they drew a pumpkin and then folded it out into a....

Q You sent some pictures of it didn't you?

A Yes, into a vampire kitten. And she did it all independent. I literally walked in and went 'oh, where have you learnt to do that'. And she used the Google Home Hub, moved it to show me how it had been created, and I was like 'you've just done that by following their direction'. Yeah it was lovely, it was really lovely. So now they are watching these tutorials all the time on how to draw. So their drawing over the past week has got lovely.

And Alison yesterday, I've got the picture to send to you, she came and sat down and she did it with me as if we were doing the video. So she was teaching me how to do a LOL boy. And I've taken the pictures for you as well.

Because then we played on the Playstation, I was exhausted after that. I always tire myself, and I do apologise now for the caterwauling on the video, that's me singing.

Q2 That's amazing, oh I love that. Extra points for singing.

A They are their pictures. They're from the ??? and she talked me through each part, and it like mirrored the videos on YouTube.

And she got annoyed when I didn't do it right, she was like 'no mummy'. Because she said 'draw half a circle', I drew a full circle for the head thinking we were just going to, you know, do it. She was like 'no, half a circle like I said, because then we move up and then we place the eyes and the eyebrows'. Yeah, one by one. And she had the picture of the LOL doll and she was like taking it into pieces on how to construct the picture together, do you know what I mean?

Q So how did they discover this? Because it sounded like this took you a bit by storm. So how did it come about that they found it.

A Yeah, yeah. I think they'd just been opening YouTube, and anything that catches their eye they click on. I think....I didn't see her how she came about on to this. Yeah. She just came across it though....

Q Alison?

A Yeah Alison, yeah because she's always the dominant one you know, she has to be the one that chooses the videos, Chloe has to just....

Q So was she doing it on the tablet or was she actually on the Hub?

A On the Google Home Hub. Because they've got their tablet but the Google Home Hub, because it's voice activated and is in the mains, whereas the tablet we have to charge and we always forget. So yeah.

Q2 Were they drawing in the kitchen then as well, like drawing along with the videos?

A Yeah, because I've been struggling with them using it because it's just got quite obsessive. But then I was thinking they usually just sit in here and watch TV but now they're watching tutorials and learning, so isn't that better for them? It's just it's a bit hard when I'm always having to fight with them, like I've said to them 'we need to go to the shop' and I got absolute uproar because they had to turn it off. And that is what I don't like, is how much like they're glued to it. But if they're doing tutorials it's quite a good thing. I've taken a million pictures. We've been to the Wildlife Park so there's a hundred pictures in there.

Q Also it's new isn't it from what you say, so presumably there's a massive novelty value going on here, they've not discovered this before.

A Yeah. We do hope to be getting them one to go in their....not the hub version because they'll never have it off, but the speaker, so then they can activate the children's radio channels and things like that... So then they can listen to music more. Because I don't listen to a lot of music.

D You can come upstairs now.

Q Yeah thank you very much. We're just talking about the Home Hub drawing and then we'll be up there. Oh there they are. So it's on the table and then....

*Plays video*

D So do you want to come into Witch World?

Q Oh I love the picture. Can I take....I've just got to take a photograph.

A I took a video asking her to explain what she'd done, and I forgot to press record.

A So this second video isn't as good as what she was doing on the first one.

*Plays video*

Q That's so clever. Did you do one too?

D No, I was drawing in my book, the space book, and I found it.

*Video continues*

Q It's really interesting. Did she....so obviously that's sort of embed in a kind of relationship going on there isn't it, the parent and the child. And then she kind of pulled you into....wow, careful, we don't want any witches.....

A She wants to create her own now with dad. So that's what they'll be doing next. Because we spoke to Jason who does videoing and things like that, and Craig's learnt how to create one. So they're going to put one together to go on YouTube very soon.

Yeah, because they really enjoyed it. And Craig does a lot of drawing and he usually teaches Alison, so they decided to try and do one themselves.

Yeah. And they understand, like do you know at the end of the video the people always say 'oh subscribe to my channel and leave me a comment', and they understand that now, and they've said 'can we subscribe because we want to watch further new ones'.

Q I was going to ask you how you'd reacted to that. Because you said they did subscribe, but presumably....so they're getting your permission first to do this, is that right?>

A Yes, because they didn't know how to do it. I don't know how they understand what that word means, because it's just 'subscribe to my channel', so from hearing it so many times they kind of understand that that's having like a bond with them or something like that. Do you know, if you're subscribing it's giving your OK for the channel or something. Yeah.

But we've not subscribed on the YouTube, we've subscribed via Craig's phone just then we can watch if it pops up what it is, and then we can pop it on to there. Because I want some sort of control. Because if we subscribe to something and something weird comes up on their channel we want to be able to intercept that beforehand. So it's subscribed via Craig's YouTube channel so he can keep tabs and show them the new ones. But they've just been watching the Skeleton Hand one, that's what they were doing in their books before you guys came.

Q Oh I see, yes, this is how we got on to all this wasn't it? Well that's so fascinating, thank you so much. That's really perfect.

A Yeah. I was just thinking the other day like 'oh you're going to have a field day seeing ??? But now like, I was struggling how much they were watching it.

Q Yes you said you'd.....yeah.

A But then now I've seen that they are doing so much good from it.....

D ???

C This is a bit too fast.

D Wheel stop! Didn't work today.

A Halloween's a very happy day for us. This is before the candy as well, so.....still got two more pumpkins to carve out.

Q Should we come upstairs and do the play tour, I'm really conscious that we didn't finish upstairs.

You were telling a bit more about this book, so that's another job. Would you like to show us upstairs first, then we'll talk to mum a bit more and also look through your....you can look through the books with Beth. Is that OK?

Q So did you get that thing on the scratch and....

A The scratch and sketch pad.

D Mum I'm taking my stuff upstairs. Are you OK to come to Scary Witch World?

Q To the Scary World upstairs?

C It's scary up there.

D Yeah but she's not called Alison any more, she's called Skeleton and I'm called Friend Witch, real friend witch.

Q Skeleton and Friend witch, OK.

C She's called Witch, I'm called Skeleton.

Q OK then. Lead on Skeleton. After you. You go first and we'll follow.

D Naughty ???

C This is going crazy!

Q You've got Halloween things everywhere.

C You go first.

Q Into your bedroom?

Q So....oh what's happened to you?

C I fell off the broom.

Q You fell off the broom? Oh no, what did you....

C I kept stopping and it bounced and I fell. It went like this and then went down a little way.

Q And then you jumped and down you went. So here is your lovely bedroom and we're going to hear a bit more about how you play in here, and all the toys you've got....gracious. Where would you like to begin? Who is this?

*Plays music*

D     ???

C     It's singing. It's from Moana.

Q     Oh is it? You've mentioned Moana already today.

C     It's an electric dog.

Q     Oh is it, electric dog. Oh that's one of the ones that is internet connected I think.

C     It's empty.

Q     Oh right. Those are the dogs that....and they do tricks don't they? Is it like a remote control and you can make them jump and go backwards and things?

C     This is electric but it's run out of batteries again.

D     I have to go out for a second, I'm leaving my hat off. Oh!

C     Why do we have Barbie in here?

Q     So this is like a toy box with all these things in.

C     Yeah. When you can't find a box to put these in you put it in a white box.

Q     I see OK. So do these belong to you particularly or are they shared?

C     We share them.

Q     Mmm.

C     Coconut.

Q     Coconuts?

C     It's from Mo-i again.

Q     So tell us, you seem to have a lot of stuff from Moana, how has that happened?

C     This is an LOL doll with the head popped off.

Q     Oh dear.

C     It should be under the bed somewhere. It's supposed to be in my bed. A big tissue, 'achoo'.

C We went out to this place on holiday to Scarborough, we was camping. And then there was this game where you put money in and I won it. It fell down the thingy and I got it.

Q Is it a key ring?

C Who's coming?

D Me.

C There should be no humans in here.

D No I'm a friend.

C I know. Do you see the fairy ring?

Q Oh yes, how lovely.

D She wants this in her hair.

C Guess what, I can do plaits in hair. I've been practising.

Q How do you know how to do a plait, who has taught you?

C Mummy taught me by doing it in my hair, so now I know how to do it. Can I show it like this? ??? me Alison.

D Can I just put my hat on, and my coat, because I'm a queen witch.

C Not yet.

D I'm the queen of the house. Because this bit is my home.

Q Yes, so you're on the bottom one are you, is this your bed?

D And I'm home. Yeah, and this one's my bed and this one's my house.

C That's my house.

Q Oh OK. So you think of this as a house?

C And I can put it in a bow too.

Q So Alison, if we get everything out then we're going to have a lot to put away so it might be as well if we just do one lot of things at a time.

C I'm going to keep my fairy.

Q OK then. But I was just noticing you had a lot of stuff from Moana and I just wondered why. Are you fans of that film, do you like it?

C I love it.

Q You love it. Have you got the DVD or anything?

C Er....yeah. It might be somewhere up here.

D I'm looking on the top of the castle. I'm allowed on this bed.

Q Now just tell me about Moana, do you like Moana too?

D Yeah. I'm the queen of this palace, because that's my castle. I'm the queen of the castle, I'm the queen of the castle.

Q So shall we pop these back? Is it OK to put them back in the right box some of these?

C I will keep these to play with.

Q OK. I'm just worried that we might....

D Look at me.

Q If there's anything else you'd like to tell us about. Do you remember how these work or anything like that, have you used these?

D No.

Q Do you remember about this, just how this one works or anything?

C Yeah just press this, but it's run out of battery.

Q Oh OK. Sorry what did you say Chloe?

D It's fun and there's ??? that dog.

Q Oh is it?

C It's actually mine.

Q Oh it's yours.

Q2 What kind of things does he do?

C We have this electric ball and this electric ??? and when we move it he runs around and try and put it....there's this metal thing and it goes on there. Because he runs around when we get a bone on and he gets it.

Q What does the cat do, because the cat's in that sort of thing as well isn't it?

C Well it doesn't do anything. But when we did it right good....and then if you do this it does music.

Q Oh OK. So what do you think to this one, it's obviously not so good now it doesn't have a battery in. Would you like to be able to play with it again, or have you lost interest in it would you say?

C I've been playing with it a lot.

Q2 What's the good thing about that?

C That you can move the thing and it runs after it.

Q2 And it follows it? Yeah that's very cool.

D It's not....wait. When it's Halloween or Christmas or Easter we go out a lot. And if the bedroom's tidy mummy says you're not allowed to come out until it's tidy. Look at me. Look at my dress.

Q It's beautiful. Just tell me a bit more about the fact that these are your....did you say your castles or your....what did you say about the beds?

C It's pretending this is the castle. Because these are actually bed.

D I can open this up.

C Guess what I made. Guess what I made. It's a superhero.

Q2 A superhero, does superhero have a name? Cool.

C You look scary.

D I need to get everything else back upstairs.

C I don't know when I made it but....I can get my own shoes. It's a mask.

Q It says Katie Morag on the back. She's a character in a book too isn't she, Katie Morag?

C It's a character on TV.

Q Oh it's on television, yes, I've seen her in a book. Isn't she the one who lives on that Scottish island?

C Yeah.

Q Yes that's right, with her grandparents or something, and they have to wait for the....

C Mum and dad.

Q But they have to wait for the boat to come in sometimes don't they to bring stuff.

C Yeah, and she has this grandma.

Q That's right, I knew the grandparents came into it. Do they have the post office, or am I just imagining that?

C Post office.

Q Yes, that's all I can remember really. Do you like the Katie Morag things on TV? Do you watch that?

C Yeah, that's why I've written on it.

Q I see. But the mask itself, that's not to do with Katie Morag, is that right? Or is it?

C No.

Q No. That's beautiful, a lovely bit of colouring I think.

C I think I made it when I was like 4 years old, but now I'm 6.

D Can somebody help me?

Q Oh what do you these have on?

D Because those are ??? in my hands.

Q Oh my heavens.

C Chloe where's your witch broom? I want to try it.

Q So do you like to bring things into your bedroom, or do you play with things that are already in here?

C I play with things that's already here.

Q OK.

C You've put that in there, it doesn't belong in there.

Q So where do you keep your toys? You've got the white box. What else has toys in in the room, or books, or colouring or crafts?

C All of these.

Q All of this?

D Time for my work.

C We're not allowed to play with these because they're too....

- D Yeah. Because this is another room, I'm going to my charging work. Bye.
- C Can you put that box on that bit.
- Q Of course. Let's put this recorder on there.
- C That goes here.
- Q It goes on that one does it?
- C That box goes here.
- Q Did you say there was something that shouldn't be in there? Shall we take the tray out?
- C Yeah these bits.
- Q These don't belong?
- C This doesn't belong in her bed. The rest belongs in her bed. And this one belongs in my bed.
- Q OK. So everything has a bit of a home. And did you say it went in this one?
- C This is where all Barbies go.
- Q Oh my word, that whole thing is full of Barbies is it?
- C Yeah.
- Q That's a big box of Barbies.
- C And Barbie dresses. That one can't fit in there.
- Q No, we'll just have to be a bit careful. So would you like to show us this box?
- C It's where these dolls....they fit in. You can ??? hairstyle.
- D I've gone to my work and I'm straight back.
- Q Lovely. So we're just listening to Alison talking about these, but you can tell us as well Chloe if you'd like to.
- D What?
- C You can dress it up however you want. But we've lost most of the dresses.
- Q Are any of these your toys in here Chloe?
- C I've had a story about it.

Q So, is this like a Barbie ??? or anything like this?

C We got all of these from Christmas. That one. And it said both of our names on it.

Q Do you like any of the toys in here?

D Yeah.

C And do you know this bed, guess what, this bed, we got it for Easter and we both really wanted it and our dream came true.

D I want to stand....I need to stand to take my rubber out, I want to take my rubber out so I need....

C Chloe you can't, remember.

D I'm just going to try and see if you could ??? OK?

C No I can't do ???

D OK.

C You can just.....

Q So, gosh, we'll put these in here.

C She can put something on the bed. Chloe, you're not taking the thingies out of your hair, you can just dive up.

Q2 Can I ask you a question about the toys on your bed? You've got lots of toys from films that I saw, a minion and I think I saw some trolls, yeah?

C Er...yeah.

D We've got puppies.

C You go in this one.

D Ga-ga....

C That's an LOL baby.

D An LOL baby.

C Yeah.

Q Oh it's an LOL.

C And I only got the big sister, but Chloe...well I had an LOL doll and we had it for Christmas, an LOL doll. I had one with blond hair, and guess what, something appeared. We

both had LOL babies at Christmas. And the guess what, I got this and Chloe got my LOL baby.

Q Do you often get things at the same time?

C Yeah.

Q Yes, so one of you has one thing. And then do you play with each other, are you able to swap about, or do you tend to stay with the things that are yours?

C Well we used to split up when Chloe doesn't listen to me. Guess what, Chloe knows this, but Chloe says 'I want to do this, I want to do that' when I don't want her to do that.#  
I have to go like this. Come on.

Q So tell me about what have we got here.

D Bye, I'm going shopping.

C This is Poppy. This is Blanche. And I got Blanche when it was my birthday because my nannan had had some money in her purse. My mum didn't....well we went to this cafe where this machine where the toy bit is and....

D I'm going to a shop.

C ....and my nannan wanted to get a big surprise for my birthday and I went round and I saw my nannan going in that toy box. And I said 'I want that', and my nannan wanted to get me Poppy, but I wanted this. Because I've already got a Poppy one and I want Blanche with it because it goes together.

D Bye, I'm going shopping.

C And guess what, I wanted to get the whole of the thingies.

Q Like the whole set of them?

C Yeah. And even the ground so I can play with it on the ground.

Q OK. So how do you play with those, what do you do, do you like to just have them sat there, or do you make them talk or have stories or anything like that?

C I play it like then when you play that they're my babies and ???

Q Oh lovely.

C I can read books.

Q Do you read books to the toys or anything like that?

C Yeah.

Q Oh do you? You tell them stories from the books? That's a lovely idea. I'm just going to....Chloe said she was off shopping on her broomstick, and she's got a lovely bag with Nemo on I think, is that right?

C Chloe, can I have a look at that bag.

Q Oh don't worry, when she comes back, don't worry.

C It has a mermaid on.

D And I called it Chloe.

Q Did you call it Chloe, oh lovely.

C And do you know, there's this yellow thing. Do you know that yellow thing on that tree? I go to Rainbows and I made it and it's a bird feeder. I had a dream about it. Yeah. And there was birds all over and a woodpecker pecked on it and it ???. And then I was crying in my bed at night.

Q What really crying, or in a dream?

C Like this....agh...agh....

Q Do you mean in the dream you were crying, or you were really crying?

C I was really crying.

Q Have you seen any birds on it actually?

C No, not yet, there's no holes in it. I thought it was real, that's why I cried.

Q Yeah that's right, dreams can seem really real sometimes can't they?

C Yeah.

Q So, what else do we need to look at?

Q2 I was wondering whether we should look at these fancy dress costumes over here. And you can tell me who they are.

C I can undress and dress, undress and undress and then dress.

Q2 Fantastic. Could you talk us through which costumes they are?

C This is Belle. This is Little Mermaid. This is another ??? pumpkin. This is....this is Dolph....Alice in Wonderland. This is Sophie ??? This is Elsa. This is Anna.

Q2 I see. And when you dress up do you pretend to be the characters?

C Yeah. Chloe really wants to be a Grinch and I really want to be a girl Grinch.

Q A girl Grinch, oh that's a nice idea, I like that. What's given you the idea for that?

C Well we was playing Grinch's this morning. Chloe was the Grinch, I was a girl Grinch, and we were saying 'shall we get married'.

Because I was going to wear this and Chloe was going to wear some prince clothes what looks like a boy, she was going to wear this for marrying. And then we were... then we will kiss each other like this 'mwooah'.

D I'm here. I'm back.

C What have you buyed?

D I've only gone to the toy shop, because I couldn't find any. But I got two things, it were OK.

Q Let's have a look and see what you've got.

C I bet she's got apple and pear.

Q Oh well, let's see what she says.

C What is that?

Q2 Beautiful jewellery.

C I can hear the music, I can hear something.

Q2 Can you hear ???

C I can hear you. I can hear you by talkie talkies.

Q Chloe, can you tell us about some of the toys on your bed. Do you have a favourite one of all the toys on your bed, because you've got a great selection.

C It's what is my favourite. I have two of my favourites.

D And I got some of them from the next door neighbour.

Q Oh yes, were they getting rid of them then and gave them on to you?

D Yep.

Q Which ones do you like specifically?

C These are my favourites. I have five favourites.

D I like....

Q And who is this?

C 1, 2, 3, 4, 5.

D Pudsey. Do you remember it from last time?

Q2 I do. Who else have you got here.

C I think I'm 6 now.

Q What's your next favourite? Oh....

D I haven't played this for a while because I haven't been, I just saw it. What is this, a banana? Look, because look, this looks like a banana.

Q His tail, of the monkey, looks yellow like a banana with a black end to it doesn't it, yes. Chloe, what's this piano here? Let's just move these so we don't....that's it.

*Plays piano*

D Look.

Q Oh you're playing the piano.

D These are the making different, and these are the songs.

D And look, we have some ??? And that's to stop.

Q And that's to stop. Gosh do you like all the buttons and things that you can press?

D I'm going to choose....

Q That one. That says Play. Oh!

D That didn't work.

Q How do you like to play on this, do you ever sing, or do you just enjoy playing with it? What do you do?

D I like everything.

Q So do and Alison share this, or does it belong to you particularly?

D ???

Q You share it.

D It's quiet now.

Q It is quiet isn't it? So you can adjust the sound level.

D Loud.

Q That's right.

D Or quiet.

Q That's right.

D I'm going to that.

C I need to go to sleep.

Q Oh shall we make it quiet now?

D No.

Q OK so Chloe it does get a little bit loud, and given that we're talking ??? shall we just make it soft again please?

D OK.

Q Thank you, that's better. But can you just tell me, have you got a favourite button – apart from the loud, making it louder perhaps?

D I like this.

Q Do you like the actual keys themselves?

*Plays piano*

C Agh..... I feel tired now because ??? In the morning it's our bedtime, at night time it's our morning.

D And it's our bedtime when it's.....

C Chloe, get in your own bed. This is my bed.

Q Can I just ask you something. because there was something that your mum told us about and we've never really followed up on it with you. But do you remember that you played a game of, I think it was using the sat nav and driving the beds like they were a car.

C Yeah.

Q Have you done that since, or was it just once that you did that?

C We do it a lot.

Q Oh do you? Would you mind, would you be able to play it now?

C I'll say it, she can go to sleep, she's ???

Q Well shall we see if she'd like to. After you've been to sleep Chloe would you play the....do you have a name for the game, is it the Driving Game, or the Sat Nav game?

C I think it's called.....

D Let me go to sleep.

C She wants to go to sleep.

C This is a game called Driving Through the Park.

Q Driving Through the Park.

C Because this is....

D Get downstairs. Let me go to sleep now.

Q So you were saying how you came to play the game.

C She's a big snore. When I'm sleeping she goes like this '(snores). So I go 'Chloe, Chloe, it's Halloween, it's Halloween' and then she goes (snores). She's not a quiet sleeper.

On Saturdays and Sundays but sometimes we don't because we have movie night, like we have a TV.

Q Oh you've got a TV, I didn't notice that.

Q2 So what do you watch on the TV up here?

C Small foot.

Q Very good. So you do bring the Kindle in here sometimes?

C Yeah we watch it at night when we're.....she just wants me to cuddle, that's why. Ow, she's got my head.

Q Do you want to go to sleep Chloe?

C No she wants me to be the mum.

Q You want to play. Well we have done a lot of talking. So shall we talk about this later maybe? Shall we go and have a chat with mum, and then we'll come back and talk again. You two can play. What do you think? Is that alright with you Alison.

C I want to go downstairs but she's cuddling me too much. Go. Let's go. Yeah she's a flea, I can run away.

Q OK Chloe, we're perhaps going to go downstairs and do a bit more talking.
