

Q Julia Bishop (researcher)
Q2 Beth Nutbrown (researcher)
A Katie (mum)
B Matt (dad)
C Stephanie (8)
D Saskia (6)

Q2 So what about this one?

C I have seen that before. I can't remember what it's called, but I used to have like a teddy bear version of it. I can't remember what it's called though.

Q2 Did you like talk to it and stuff and it would do things?

C No mine was just like a teddy bear.

Q2 OK cool.

C But I have seen that before at like.....

Q2 This one's a Furby.

C Yeah, yeah, now I can remember it. So I remember my friend, she had an app connected to it like this one, and you can programme it to do things and get it to talk to you.

Q2 Yeah that's really cool. What do you think about them?

C I thought they were quite cool actually.

Q2 Yeah? Did you have a go with your friends?

C Yeah.

Q2 Awesome. So where would you put it do you think?

C I think I'd put it in that one or that one, because sometimes I'll go over to the house but I don't regularly play with them.

Q2 Yeah, oh that's cool, that's really awesome, that's great. So about this way...it was the right way wasn't it, and it's upside down.

C Yeah we have video games, we have Sonic. And sometimes.... we've played Sonic a few times on the holiday.

Q2 And what do you think about that, do you enjoy it?

C Yeah. And the other day, our God-dad's birthday, we went to....because they've just moved to Barnsley and we went to this Barnsley pub for the day, it's a bit like Meadow Farm, and they have that sort of video game controller there.

Q2 Oh awesome, that's really cool. And do you like video games? Or do you like to play with other things?

C We sometimes do play with video games, we do like them, yeah.

Q2 But would you rather play like with your tablet or toys?

C There is other things we like better, but we still like to play, yeah.

Q2 Oh that's cool, that's awesome. So where would you put it do you think?

C I think I'd put it in this one.

Q2 Mmm, because you do sometimes play with it?

C Yeah.

Q2 Do you play those with other people, or like....

C Sometimes we play it not with other people but sometimes when we're playing Sonic we'll see who can pass the most levels or something, so we don't necessarily play with other people like over headphones and speakers.

Q2 Yeah, and you wouldn't necessarily be like two players but you'd be like competing against each other to see how far the other one can get?

C Yeah.

Q2 What about Alexa, do you sort of like play around with Alexa like with your family, or do you just like to play around with Alexa whenever you feel like it, just by yourself?

C Yeah you can just do it whenever you feel like it. Sometimes it's with family and like you all sit around it and do something. But normally it's just you just ask a question and...normally everyone's in the same room because we're normally just playing around with technology and Charlie's [the dog] just sat down here now, he wants something.

Q2 And what do you think about this one?

C So LEGO.

Q2 Yeah.

C We have quite a lot of LEGO.

Q2 Yeah, do you like LEGO?

C Yes.

Q2 What do you like about it?

C I don't necessarily like playing with it, I just like the building bit, I like building it up.

Q2 So do you prefer to like build things out of it and then like have them as they are, and then take them apart or....

C I prefer to build it and ??? Saskia normally though, she plays at....I got this Catamaran LEGO piece for Christmas and she wrecked that.

Q2 Oh no, what did you do?

C The door came off. The roof keeps breaking. I think I might have to re-do it.

Q2 So did you like build it and then she's taken bits off?

C Yeah.

Q2 Ah. So you can't put it back together?

C No I can't find the instructions.

Q2 Do you follow the instructions on how to make it?

C Yeah.

Q2 Have you got quite a few like sort of LEGO kits as well, like you kind of put things together?

C Yeah.

Q2 Oh. Do you prefer like the kits ??? like the regular ones?

C It's quite 50/50. I like it when there's something set to build, but I also like it when you can just be creative and build anything you want with the left over blocks that you've got.

Q2 That's cool, that's really a good way to look at it, that's really awesome. And do you sort of play with LEGO by yourself, or do you play with your parents?

C Yeah sometimes I'll play with Saskia, or our friend, she comes over and she likes to play with it as well. But sometimes I just build things by myself. Normally if it's a big set then I'll play with my friends or Saskia, but if I'm being creative and building something it's normally by myself.

Q2 Yeah because you like that ??? and build it how you want it?

C Yes.

Q2 Oh awesome. So where would you put this one do you think?

C I think I'll put it in this pile.

Q2 Brilliant, awesome. OK, and how about this one?

C I don't necessarily have one, unless that counts as one?

Q2 Oh yeah OK yeah.

C Sometimes I'll go on my mum's because I use that to like....if I need to do like a school report or something.

Q2 Oh so you use your mum's laptop for like school reports. But would you say you play more on your tablet?

C Yeah.

Q2 Awesome. So you would do like your school work on your mum's laptop?

C Yeah.

Q2 And where do you think you'd put it?

C I'd put it in....I think I'll put it there.

Q2 Yeah, because you use it, that sounds good.

C Yeah.

Q2 Alright, this one?

C That one looks more like a different version of Nintendo Switch. I'm not sure what it's actually called.

Q2 It's very....so it's all made by Nintendo, it's a Nintendo DS, it's like a portable games console a bit like the Switch. Yeah, awesome. So what do you think about the....have you ever played with one?

C I've never actually played with one, so I think I'd put it in that pile.

Q2 Yeah, that's OK, that's cool. And what about this one?

C I do know what that is. I do regularly play on it because I have that one the keyboard comes on, so that's necessarily an iPad.

Q2 Yeah, so you've got like a tablet and you play....yeah awesome. And do you have like the games, the game ???

C Minecraft.

Q2 You do Minecraft, yeah. And what were you going to say Saskia?

D ???

Q2 Yeah, awesome. And have you played it or do you just sort of like know about it?

C I don't necessarily play Minecraft.

Q2 Yeah but you've just like heard of it.

C Yeah.

Q2 Awesome. So where would you put the tablet?

C I'd put it in this one.

Q2 Awesome, brilliant. And then how about this one?

C The phone. It looks like they're playing Pokemon Go.

Q2 Yeah, awesome. So it's kind of like an augmented reality game.

D In front of my house.

Q2 Yeah in front of your house.

C So I don't play it, I don't have it, but....

Q2 Do you play on like your mum's phone at all or anything like that?

C Sometimes, but I don't normally play it.

Q2 Yeah, that's cool. And like have you ever played any like augmented reality games kind of like Pokemon Go where like you've got an object that appears on the screen and it looks like it's in real life but it's not?

C Yeah there's quite a few games, I don't know many names but...

Q2 That's OK. Are they kind of like on your tablet and things like that?

C Yeah.

D I'm going to give you some a bit later.

Q2 That's OK, that's brilliant.

C Are you ready for your.....

D I've just stuck this ???

Q2 Well done, that's brilliant.

C Are you ready for this then?

Q2 Do you want to have a little look at these? I'll take a picture of these first.
