

Conference for Research and Innovation Supporters 2016

Marketplace Exhibitor A-Z

Stallholder	What's on offer?	Link to more info
AUA (Association of University Administrators)	AUA exists to inspire professionalism in higher education and promotes the professional recognition and development of all who work in professional services roles in the sector. Come and find out about the University of Sheffield AUA branch and member benefits including valuable networking and professional development opportunities.	http://www.aua.ac.uk/
Biological Services (Animal Research)	Biological Services, based in the faculty of Science and Medicine, Dentistry and Health provides support to the university's animal research community. They are committed to providing the highest standards of care and welfare for laboratory animals. This is an opportunity to find out more about animal research here at the University and ask any questions.	https://www.shef.ac.uk/ris/other/gov-ethics/animalethics
Communications Team (R&IS)	Research & Innovation Services (R&IS) provides guidance, expert advice and hands on support to help academics achieve their research ambitions. Through working in partnership with faculties, departments and professional service colleagues, R&IS helps academics to secure research funding, work with research partners, undertake knowledge exchange and demonstrate impact, commercialise outputs, develop early career researchers, deliver good research practice and support the academic and professional development journey of doctoral students. Please visit us to find out more about how we can help support you.	https://www.sheffield.ac.uk/ris/contacts/partnerships
Corporate Communications	Corporate Communications works alongside academic and professional colleagues to ensure University communications convey our world-class values and aspirations. A key theme is promoting the University's research and its impact, creating and maintaining mutually beneficial relationships with strategic partners. Visit the stall to find out how Corporate Comms can work with you to add value to your work area.	https://www.sheffield.ac.uk/corporate-communications
Develop, Manage, Lead	This HR team supports the development of staff skills in both leadership and management as well as wider skills development. This is available to all staff, and we can also provide support for teams, for example in strategy development and effective ways of working. Find out more	https://www.sheffield.ac.uk/hr/sld

	about the range of planned development through Development Everywhere, MANAGE and the Sheffield Leader, as well as the bespoke support available, including examples of working specifically with research teams.	
Guardian News and Media	The Guardian international media news brand supports research and innovation through quality editorial and journalism globally. Their online professional networks also provide analytical and interactive opportunities for the HE community as well as discipline-specific professional networks. Find out how you can benefit from joining the world's largest online academic community, learn about Guardian Students, and also how GuardianJobs can help you attract and recruit leading talent for your academic, research and senior HE professional roles.	http://www.theguardian.com/education/higher-education
Innovation, Impact and Knowledge Exchange (IIKE) support (R&IS)	Working with Knowledge Exchange teams across the University we support the development and delivery of IIKE activities. We share best practice and facilitate links to University resources (not just funding, but access to training or assistance with pricing and contracts for example). Find out more about the range of IIKE activity taking place and how you and your research could benefit from the support on offer.	https://www.sheffield.ac.uk/ris/rpe/iike2
International Relations Office (IRO)	The IRO work to develop partnerships and relationships with other universities and stakeholders around the world. They also manage our relationship with the Worldwide Universities Network, and offer funding via the Research Mobility Programme and the Research Development Fund. Learn more about the IRO and how they can help you reach potential international partners.	https://www.sheffield.ac.uk/internationalrelations
Jobs.ac.uk	All University jobs are advertised via jobs.ac.uk, the leading academic job board for careers in academic, research, science and related professions. Find out about the enhanced recruitment packages available, and discuss how jobs.ac.uk can help you find the high quality staff you need.	jobs.ac.uk
Juice	Juice is the University's health and wellbeing initiative for staff, providing a wide range of enjoyable and energising activities plus resources and advice to help look after your health, both physical and emotional. Find out how Juice can help you and your colleagues enjoy positive health at work.	http://www.sheffield.ac.uk/hr/wellbeing
LeTS	Research led teaching and learning is at the heart of our identity as a University and differentiates us from other HE Institutions. Learn more about how we can support and	http://www.sheffield.ac.uk/lets

	advise you to ensure research is at the heart of student learning.	
Library Research Services Surgery	Research Services and Scholarly Communication leads on developing educative and advisory services to meet the needs of researchers at all stages of their career and advance the impact of research. This includes coordinating the Open Access repository for research outputs. Find out more about uploading research outputs to the repository, drop in with any problems and queries, learn about scholarly publishing and the Library's role, and discuss any issues relating to library research support.	http://www.sheffield.ac.uk/library/services/learning
Public and Patient Involvement (PPI) Payments	PPI (Public and Patient Involvement) is a new process for making payments to Service Providers where the Service Provider is not regarded as an employee of the University nor casual worker. Learn about the new process and receive advice and guidance on completing the 'Agreement form for ad hoc services' and Claim form. PPI process is expected to be introduced by Summer 2016 and applies solely to research projects.	https://www.sheffield.ac.uk/scharr/ppi
Public Engagement and Impact Team (R&IS)	This team helps staff across the University to find creative and collaborative ways to engage with the public, sharing and communicating our research. The stand will show examples of past events and the flavour of public engagement at the University, as well as forthcoming opportunities, training offered and how such events can support evaluation and impact for REF and funding applications. Staff will be happy to explore your own ideas for future events.	https://www.sheffield.ac.uk/ris/publicengagement
Quality and Governance Team: Ethics and Integrity Support (R&IS)	The team supports the implementation and application of the University's Good Research & Innovation Practices Policy, Ethics Policy and Ethics Review Procedure. Visit them to improve your awareness of ethics, integrity and governance requirements and to find out more about the resources and support they can offer researchers and their supporters.	https://www.sheffield.ac.uk/ris/contacts/qgt
Research Development Team: Fellowship Development (R&IS)	Find out more about the Vice-Chancellor's Fellowship (VCF) scheme and the First Grant and Fellowship Network (FGFN). This will be of interest to strategists and those considering hosting a VC Fellow or applying to the VCFG or FGFN schemes.	https://www.sheffield.ac.uk/ris/vcfellows

Research Systems (R&IS)	R&IS is working closely with CiCS and representatives from across the University to develop integrated research information systems (IRIS). These include myPublications, Researchfish, OrCID, Altmetric, URMS and myResearch. Visit them for demonstrations on the main systems and how they interact with one another. They will also be able to answer any queries you may have.	https://www.sheffield.ac.uk/ris/systems/index
SCHARR Innovation and Knowledge Transfer	SCHARR, within the Faculty of Medicine, Dentistry and Health, is a vibrant multidisciplinary group of researchers with a common interest in improving the health of the public at local, national and international levels. Its Innovation and Knowledge Transfer team supports four areas of commercial activity. Find out more about the opportunities available to SCHARR and other departments, and the impact that diverse income streams can have on your department and the University as a whole.	http://scharr.dept.shef.ac.uk/ikt/
Sheffield Undergraduate Research Scheme (SURE) 301	SURE offers the University of Sheffield's undergraduate students an opportunity to become directly involved in the research activity of the University. The scheme aligns with our commitment to research-led learning. Visit the stand for more information on SURE, the benefits to both students and supervisors, and to find out about previous projects.	https://www.sheffield.ac.uk/sure
Social Sciences Partnerships, Impact and Knowledge Exchange Team (SSPIKE)	This new team provides support for external partnerships, Knowledge Exchange and research impact activities across Social Sciences. Find out more about the support available to staff including training and potential funding opportunities for their prospective or current activities, and support for building new partnerships for collaborative research.	https://www.sheffield.ac.uk/research/contact
South East European Research Centre (International Faculty of the University of Sheffield)	Interested in expanding your research to South East Europe? Interested to know how you can collaborate with colleagues from the International Faculty of the University, in Thessaloniki Greece? South East European Research Centre's (SEERC) mission is to support the stable and peaceful development of South East Europe by conducting pure and applied research in and for the region. We can provide academic cooperation, access to networks and a research base for bringing your research to the region.	www.seerc.org
Technet	Technical services networking group whose aim is to raise the profile of technicians within the University and promote technical career paths. Find out about the support network including opportunities for work shadowing, exchanges,	https://www.sheffield.ac.uk/technician-registration/events/technet

	mentoring, skill sharing etc. as well as links with other institutions for wider networking across the sector.	
Think Ahead - Researcher Professional Development Team	The RPD team provides Think Ahead, a research-led framework for the continuous professional development of researchers at the University, supporting individual career ambitions in and beyond academia. The team works with from around the university to enable changes in practice and culture to support research staff to develop themselves and deliver world class research. Find out more about Think Ahead and the team, meet colleagues and make networks.	http://www.sheffield.ac.uk/ris/ecr
White Rose Doctoral Training Centre	The White Rose Social Science Doctoral Training Centre, accredited by the Economic and Social Research Council in 2011, is a collaboration across the social sciences at the Universities of Leeds, Sheffield and York. Find out more about the different training courses and pathways for doctoral graduates and more information about the ESRC studentships available.	http://wrdtc.ac.uk/
WithUS	Catering, event management and conference facilities including Halifax Hall, Inox Dine, The Edge and Firth Court. Find out how the cUStomised team can tailor packages to suit your requirements, including their comprehensive Delegate Management and Registration Service.	http://withus.com/
